

NOW AVAILABLE!

ORDER A CUSTOM PEER ANALYSIS REPORT FROM BACHELOR'S SURVEY

ASA's Research and Development Department is now offering custom peer analysis reports that sociology departments can use for department assessment and review. You can order a comprehensive custom report tailored to your needs by selecting key peer comparison groups.

Tabulations, by your peer groups, will include all the analysis variables listed below including student demographics, educational experience, and complete batteries on reasons for majoring, future plans, skills gained, learning activities participation, and program satisfaction.

You will receive tabled results in EXCEL format using metrics we presented in our chart book of results (see: http://www.asanet.org/galleries/default-file/B&B_first_report_final.pdf).

How it Works

First choose a peer group to compare your department. Choose from:

- All departments of specific institution type (standard coding)
- Departments of public or private institutions (standard coding)
- All departments of specific size groups based on the number BA/BS degrees awarded in 2003 (standard coding)
- All departments in your region (standard coding)
- Choose your own peers from 92 schools (custom coding, extra fee)

What you Get

Profile the Students

- Demographics: Gender, Race & Ethnicity, Family Status, Parents' Education
- Higher education experience: GPAs, Transfer Status, Full-/Part-time Status, Employment while in School

Assess your Program

- Reasons for majoring in sociology
- Future plans after graduation
- What concepts did your students learn?
- Which skills did they gain?
- Which skills are they listing on their resumes?
- Participation in outside learning activities by sociology majors
- Overall satisfaction with sociology programs?

See the variable menu for more details.
