ASA Executive Office—Toyon

The Headquarters Office will be staffed from Sunday through Friday by Executive Office personnel who are in attendance for the purpose of keeping the convention operating and solving any problems that may arise. The demands on staff time and equipment are limited to official ASA functions. Individuals or groups requiring office equipment must arrange for the rental of this equipment directly with suppliers. McCane Audio/Visual, located in the San Francisco Hilton Hotel, has secretarial and photocopying services available (9 a.m.—5 p.m.).

ASA Information Desk—East Lounge

The Information Desk is staffed with ASA Executive Office personnel who will be able to provide information on membership, subscriptions, etc. Copies of the 1982 Directory of Members, Directory of Departments, and Guide to Graduate Departments of Sociology are available for purchase, as are other ASA publications. Sample copies of ASA journals and various Teaching Resource Center products are also available for inspection.

Book Exhibits—Hilton Plaza

All Annual Meeting attendees are encouraged to browse through the Book Exhibits located in the Hilton Plaza (Lobby Level). Exhibits open on Monday, September 6 and will close on Thursday, September 9. Exhibit hours: Monday through Wednesday, 9:00 a.m. to 5:00 p.m.; Thursday, 9:00 a.m. to 3:00 p.m. Sixty-six exhibitors are in attendance this year. (See the "Directory of Exhibitors" listed elsewhere in this Program for specific booth locations.)

Child Care—Suite 400

Child care is being provided by personnel from the San Francisco-based Bristol-Herron Agency. Care will be available during daytime program sessions (8 a.m. to 6:30 p.m.) for children three months and older. Evening care can be arranged on an individual basis; check with child care personnel for details. Parents may either arrange to pick up their children for lunch or bring a bag lunch with them in the morning. Snacks will be provided and a limited number of toys and games will be available.

Payment this year will again be by the day and half-day, rather than by the hour—$5 per child for a half-day (8:00 a.m. to 1:30 p.m.) and $10 per child for an entire day. Children may come for shorter periods, but the half-day fee will still apply in order to encourage more stable use. discourage frequent dropping in and out (which is difficult for both children and staff), and simplify payment. Upon arrival at the child care room, the staff will ask your cooperation in completing a questionnaire requesting information on special instructions for snacks, naps, medication, etc.

Employment Service—Franciscan

The ASA Employment Service, once again under the very capable management of Mr. and Mrs. Bill Clement, will be open Sunday, 12:30-5:00 p.m.; Monday through Thursday, 8:30 a.m. to 5:00 p.m.; and Friday, 8:30 a.m. to 12:30 p.m.

Facilities will be available for reviewing employment listings, exchanging messages, and interviewing. If you have pre-registered for the Employment Service, report to the Franciscan as soon as possible to activate your file. If you have not registered, you should do so as early as possible.

All persons using the Service must register for the Annual Meeting as well as for the use of the Employment Service. Once registered, you will be issued a pass permitting your entrance to the Service any time it is open. No one will be admitted without a pass. Fees for the use of the Employment Service are: ASA member applicants—$5; non-ASA member applicants—$20; Employers—$25.

Paper Sales—Walnut

Papers will go on sale at 2:00 p.m. on Sunday at the price of $1.25. All session papers which were submitted to the Executive Office for duplication and/or distribution at the Annual Meeting appear on the list of "Available Papers" (available in the Paper Sales Room); papers may be purchased as long as supplies last. Orders for future delivery cannot be accepted. Requests for papers which have sold out or were not supplied must be sent directly to the author(s); in order to facilitate this procedure, a "Roster of Authors" which includes names and addresses of authors (in the case of multiple authors, the first author is listed) may be purchased for $1.50. The Executive Office is not able to return unsold copies of papers to individual authors after the Meeting; however, authors may pick up remaining copies of their own papers (including those that the ASA duplicated) on Friday between 1:30 p.m. and 3:30 p.m.

Press—Toyon

Professor Fred Koenig, Tulane University, will again this year act as press coordinator; media representatives are invited to stop by the Toyon Suite for badges, programs, and abstracts.

Roster of Pre-Registrants—East Lounge

A roster containing the convention addresses of pre-registrants is posted on a bulletin board in the Registration Area. A Locator File will be maintained at the ASA Information Desk as the meeting progresses.

Featured Sessions
The 1982 Program Committee has organized nineteen Featured Sessions made up of invited papers for this year’s Annual Meeting. While the meetings do not have a single theme around which invited paper sessions are organized, Featured Sessions represent the Program Committee’s attempt to insure that promising work in the established fields of sociology and fledgling work in promising ones are assured attention. For details on the topics and participants, refer to the following sessions within the body of the Program:

- Monday, Sessions 5, 13, 31, 41
- Tuesday, Sessions 51, 61, 72, 81
- Wednesday, Sessions 96, 106, 116, 125, 136
- Thursday, Sessions 146, 154, 165, 173
- Friday, Sessions 183, 192

Author Meets the Critics
These sessions, an innovation of the 1982 Program Committee, are designed to bring authors of recent books deemed to be important contributions to the discipline together with three or four discussants selected to provide different viewpoints. Details may be found under the following sessions:

- Session 42 (Monday, 4:30 p.m.)
- Session 82 (Tuesday, 2:30 p.m.)
- Session 107 (Wednesday, 10:30 a.m.)
- Session 153 (Thursday, 10:30 a.m.)

Didactic Seminars
Designed for the teaching sociologist seeking to keep abreast of recent scholarly trends and developments, Didactic Seminars are conducted by experts who are invited by the Program Committee and who are considered to be at the pioneering edges of a given field. Speakers will present pedagogical materials to explain specialized developments within their topic areas. All seminars are scheduled for two hours, but provisions have been made for longer periods where desirable.

Attendance at the Didactic Seminars is by paid reservation only and is limited to 50 at each seminar. Those already enrolled should have received their tickets with their name badges, and should check at the Luncheon/Seminars Desk in the Registration Area for any materials the presenters might have provided for distribution. Those who did not reserve in advance but who wish to attend should check at the Luncheons/Seminars Desk for possible openings. No one will be admitted without a paid reservation; tickets will be collected at the door.

Didactic Seminars are scheduled throughout the meeting, as follows:

- Session 6, Monday, 8:30 a.m.—Computers and Data Banks (James A. Davis and John A. Sonquist)
- Session 32, Monday, 2:30 p.m.—A New Look at Content Analysis (Robert Philip Weber)
- Session 52, Tuesday, 8:30 a.m.—Feminist Theory (Catherine Stimpson)
- Session 97, Wednesday, 8:30 a.m.—Visual Sociology: Publishers, Textbooks and Imagery (Timothy J. Curry)
- Session 126, Wednesday, 2:30 p.m.—Ethics in Research (Donald P. Warwick)
- Session 147, Thursday, 8:30 a.m.—Methods for World-Systems Analysis (Christopher Chase-Dunn and Harriet B. Friedman)
- Session 184, Friday, 8:30 a.m.—Field Work (Erving Goffman, Robert M. Emerson, Gary Alon Fine, Carol Stack, Jason Dittion)

Area Study Seminars
The Area Study Seminars will explore major social trends in critical geographic regions of the world. Regions highlighted in this year’s program have been, and are still, the subject of intense interest by the American public and news media and are a source of continuing discussion and debate.

Admission to the Area Study Seminars is open to all; pre-registration is not required, and attendance is not limited. Details may be found under the following sessions:

- Session 31, Monday, 2:30 p.m.—The Middle East
- Session 83, Tuesday, 2:30 p.m.—Social Change in East European Socialist Societies
- Session 127, Wednesday, 2:30 p.m.—Africa
- Session 174, Thursday, 2:30 p.m.—The People’s Republic of China: Evolving Urban and Rural Social Structures
- Session 214, Friday, 4:30 p.m.—Latin America and the Caribbean

Professional Workshops
To explore issues of importance to the professional rather than substantive concerns of Sociology as a discipline, the 1982 Program Committee has designed fourteen Professional Workshops to be held during this year’s Annual Meeting. Topics to be covered by these workshops include:

- Teaching Introductory Sociology (Session 1, Sunday, 2:30 p.m.)
- Teaching Social Problems (Session 2, Sunday, 2:30 p.m.)
- Teaching Marriage and the Family (Session 3, Sunday, 4:30 p.m.)
Informal Roundtable Discussions

A complete listing of topics and presenters for the Informal Roundtable Discussion Sessions, organized by John Clark and Willie Edwards, may be found in the body of this Program under Sections 70, 144, and 181. These roundtable discussions are particularly valuable for those who are developing a set of new ideas and would like to have these explored further by colleagues with similar interests. They also offer an opportunity for those with similar scholarly, instructional, or policy concerns to gather and initiate and expand networks.

ASA Section Activities

Section activities, frequently innovative and ranging in format from formal paper presentations to roundtable discussions, are interspersed throughout the five-day schedule of the Annual Meeting and are open to all meeting attendees. As determined by the ASA Council, the number of sessions allocated to each Section is based on the size of the section. For the active Sections (plus those in formation), there are a total of 78 separate program activities scheduled. The Section Council/Business Meetings and the Section-sponsored Program Sessions are summarized below for quick reference; for more information on titles of sessions, participants and times, refer to the Program.

Luncheon Roundtable Discussions

A complete listing of luncheon topics and presenters is printed in the body of this Program under Session 23 on Monday, Session 71 on Tuesday, Session 115 on Wednesday, and Session 146 on Thursday.

Some tickets are still available for some of the luncheons; the numbers are listed at the End of Luncheons/Seminar Desk in the Registration Area. Also listed are the luncheon numbers for which the presenters have left materials for distribution to the participants prior to the roundtable discussion.

Persons who have confirmed reservations should have received their tickets along with their names badges. If, however, your check and reservation request were received in the Executive Office too late for processing, a refund will be made at a later date. Please check at the End of Luncheons/Seminar Desk. Ticket sales will be closed one hour before luncheons begin each day.

Cancellations will not be accepted later than 48 hours prior to the scheduled luncheon. You may, however, sell your ticket to someone else if you are unable to attend.

Historically, there have been problems concerning admittance to the luncheon room. In fairness to members who have paid for their reservations, your cooperation with the personnel in charge is essential. No one will be admitted to the room without a valid ticket. Observers are not permitted.
ASA Business Meeting

The annual Business Meeting of the Association is scheduled for Thursday, September 9, at 4:30 p.m. (Continental Ballroom 5-6) and all members of the ASA are encouraged to attend. During this meeting, Association officers will present their reports to the membership. Following this, resolutions from ASA members may be presented for discussion and action.

All resolutions for the Business Meeting should be delivered to the ASA Headquarters Office (Toyos) before 4:30 p.m. on Wednesday. They will then be posted in a prominent location in order that members may become familiar with resolutions to be presented at the Business Meeting on Thursday. Resolutions submitted to the Executive Office before the Wednesday deadline will be given preference on the Business Meeting agenda; unposted resolutions will be permitted, up to the limit of time available, before the 6:30 p.m. adjournment.

REMINDER...Only current voting members of the ASA may present, discuss, or vote on resolutions at the Business Meeting.

DAN!
The Tenth Annual Departmental Alumni Night (DAN) Party will be held on Monday evening at 9:00 p.m. (Imperial Ballroom). Just find the banner from the institution you attended, served, are serving, or hope to serve. A special table for international guests and another for sociologists in business and industry will provide additional “home bases”. Centrally located cash bars will be set up to aid in the fun.

Student Reception

On Monday, September 6, from 7:00-8:30 p.m. (Teakwood A/B), the ASA Student Reception will provide opportunities for students to meet and chat with sociologists of diverse sociological specialties. Members of the Committee on the Status of Women in Sociology, the Committee on Teaching, the Section on Sociological Practice, and Honors Program participants will be present to encourage and facilitate the informal information exchange typical of this event. All students and practicing sociologists are cordially invited to attend this open reception.

International Reception

Following the Plenary Session on Thursday evening, an International Reception will be held to provide an opportunity for those sociologists from North America and from other countries to get better acquainted. All Annual Meeting attendees are cordially invited to attend (Imperial Ballroom).

Activities of Other Groups

Meetings, times and locations of activities of various groups meeting in conjunction with the ASA are listed elsewhere in this Program. Except for a few cases, these meetings are open to the membership. All groups are encouraged to have announcements available in the ASA Registration Area for members’ information.

Smokers are requested to sit to the speaker’s right during all sessions.

UTP, educational publishers of Cambridge in England, invite you to visit their booth to see a NEW Sociology text.

Sociology: Themes and Perspectives
by Mike Haralambos and Robin Heald

Now the leading introductory text for Sociology in the UK and Commonwealth is available in the USA.

It covers the major substantive areas in terms of various theoretical perspectives and is one of the most thorough and comprehensive texts ever published.

It gives an unbiased, international view of modern and traditional theories and ideas, in language that is exceptionally clear and readable.

It is well suited to college courses as an introduction where Sociology is a major subject and as a text for other Sociology-based studies.

Don't take our word for it - come and see it for yourself!

From the think tank that does more than think . . .

If you've been thinking about what happened to the Republican and Democratic parties in the last election, the funding problems of social security, practical strategies for regulating health, safety and the environment, the deterioration of public education, skyrocketing health care costs, and supply-side solutions to rising inflation rates and declining economic growth . . . then you should be thinking about reading our publications.

NEW from HUMANITIES for Fall 1982

ROSA LUXEMBURG, WOMEN'S LIBERATION, AND MARX'S PHILOSOPHY OF REVOLUTION
Rayo Sancyge
From the author of MARXISM AND FREEDOM, PHILOSOPHY AND REVOLUTION and THE AFRO-ASIAN REVOLUTIONS, an original and major analysis of Rosa Luxemburg as woman and revolutionary. Feminists will learn as much from her passion for revolution as will Marxists from her feminist dimension. Karl Marx's principle of permanent revolution unifies the book's three sections—on Luxemburg herself, on the women's liberation movement and on the evolution of Marx's thought.

SOCIOLOGY AS DISSONANCE:
The Evolution of the Work of George Gurvitch
Richard Sackenberg
A radically new argument that George Gurvitch's main contribution to social theory is not his formalistic sociological system but rather his unique attempt to create a social theory based on workers' self-management. "Genuinely new... provocative, beautifully scholarly..."—Robert Cohen, Boston University

CONTINUITY AND CHANGE IN MARXISM
Ninos Georgopoulos, Norman Fletcher and Louis Patrouzes, Editors
What is the connection between original Marxism and 20th-century creators of Marxist thought? This anthology examines issues in 20th-century Marxism and also individual Marxists: Marcuse, Habermas, Bartke, Lenin and Gramsci.

PRAXIS AND DEMOCRATIC SOCIALISM:
The Critical Social Theory of Markovlic and Stojanovlic
David A. Crocker
Mihailo Markovic and Svetozar Stojanovic, philosophers of the Yugoslav Praxis group, are developing "critical social theory," bridging European Marxism and Anglo-American analytic philosophy. The author analyzes and strengthens their distinctive concept of praxis as the normative basis for human excellence and the good society.

MARRXISM, FASCISM, COLD WAR
Ernst Nolte
Building on his THREE FACES OF FASCISM and GERMANY AND THE COLD WAR, the author presents seventeen essays on Marxism, fascism (in his view a kind of anti-Marxism) and the totalitarianism of cold war.

Revised Editions of Two Landmark Texts...
A Modern Classic...

Sociobiology and Behavior SECOND EDITION
David P. Barash, University of Washington, Seattle
"Barash's second edition is really a major second work—the text and bibliography are almost three times as large. It is a timely updating of the field, a vigorous state-of-the-art accounting of sociobiology that will appeal to a wide audience, very useful as both a text and general source."
—Frank P. Halkas, University of California—Berkeley
Sociobiology and Behavior, Second Edition is a modern classic answering the need for lucid, accessible treatment of sociobiology. Detailed and thorough, it leads the student through the fundamentals of evolutionary biology, including the underlying assumptions of sociobiology.

New features of the Second Edition:
- A chapter on Evolutionary Stable Strategies (ESS), making this text the first to offer this material at an introductory level.
- A unique chapter devoted entirely to optimality and its constraints.
- More coverage of human sociobiology than any other book of its kind, and the incorporation of this information throughout the text.
- Strong emphasis on critical results and data that have emerged from research and empirical studies over the last five years.
- Biographic insets of the major contributors to sociobiology.
- A wide range of study questions address the reading and often controversial issues in the field, while chapter summaries provide an invaluable aid to self-study and review.

Sociobiology and Behavior, Second Edition keeps pace with an expanding field having implications for a wide range of disciplines, and provides the basic material needed by students in both the biological and social sciences. Students and teachers in biology, zoology, ethology, psychology, anthropology, sociology, and even economics and political science will find exciting, stimulating, and informative reading in this volume.

ETHNIC FAMILIES IN AMERICA Patterns and Variations
Second Edition
Charles Mindel, University of Texas, Arlington
Robert W. Habenstein, University of Missouri, Columbia, editors
"...Of particular merit are its clear definitions, logical arrangement and progressive development... students will find this text readable and interesting."
—Prof. S. Anes, Illinois State Community College

This newly revised edition of Ethnic Families in America retains all the features which made the first edition as widely used and respected. Examining the nature of family life in 12 different American ethnic groups, it provides your students with both a general understanding of ethnicity in America and a specific knowledge of individual groups.
New in this edition:
* the distinction between ethnics characteristics and other forces influencing people's lives—such as economics, social class and social mobility; the impact of various liberation movements on the ethnic family; treatment of the elderly;
continuing ethnic diversity in the United States and the circumstances under which it may flourish or perish. Ethnic Families in America is a uniquely relevant primary or supplementary text—ideal for courses in family, race, culture, social work, and ethnic history.

Beyond Empire and Revolution
Militarization and Consolidation in the Third World

The book explores the increasing gulf between resource-rich third world nations such as Mexico and the Arab states, and those which are resource-poor. His controversial conclusion is that the reliance on military rule in the developing world is an ultimately beneficial means of achieving economic stability.

"This book nicely juxtaposes classical and modern work on the study of conflict and conflict resolution. Especially noteworthy is the author's focus on the science of strategy, from Machiavelli to game theory."—Steven J. Brams, New York University.

New and significant...

Here is the most important piece of social research of the decade: the controversial and comprehensive new Coleman report. Based on a national survey of almost 60,000 students in more than 1,000 high schools, High School Achievement probes the varying quality of education in private, public, and Catholic schools. Here is a book that no one concerned about the future of American education, public or private, can afford to miss.

HIGH SCHOOL ACHIEVEMENT
Public, Private, and Catholic Schools Compared
James S. Coleman, Thomas Hoffer, and Sally Kilgore
$18.50

This landmark work by a Harvard sociologist provides the first authoritative account of how the entire American health care system of doctors, hospitals, health plans, and government programs has evolved over the last two centuries. It is a story of dramatic changes in American attitudes and professional power. The Social Transformation of American Medicine provides us with the indispensable historical context for understanding the future directions of health care in this country.

THE SOCIAL TRANSFORMATION OF AMERICAN MEDICINE

Our nation's business is increasingly run by professionals — doctors, planners, managers, engineers, architects. But what do they really do? Here, a leading social scientist observes professionals in action as they go about their daily business of solving problems. Schon shows that a professional not only applies knowledge learned in school, but also exhibits a kind of "reflection in action" — an informal improvisation — that is the essence of professional knowledge.

THE REFLECTIVE PRACTITIONER
How Professionals Think in Action
Donald A. Schon
Due November, $18.95

Americans have always promised their children a better life — a chance to develop their abilities and get ahead, regardless of family background. But, as this challenging, multi-disciplinary analysis shows, the institutions we have created to reach this goal have turned promises into a cruel hoax.

Still growing

Since the formation of Wadsworth in 1956, our business has been to provide information, primarily in book form, for students in higher education. Over the past quarter century, we have become the largest college textbook publisher in the Western United States and have achieved a leading record for growth in that industry.

Our goal for the 80s is to accelerate this growth and to substantially outstrip our industry’s performance. By the end of the decade we intend to be recognized, not only for our material progress in this era of great change for our industry, but also for the ways with which we have achieved our goal. We will capitalize on the changes at work in our marketplace through a spirit of innovation, entrepreneurship and esprit de corps at all levels of our organization. We are confident in our idea, confident in the motivation and skill of our people, and confident because we have made the following commitments:

- We will foster an innovative, entrepreneurial spirit throughout our organization. We believe that our success depends on our ability to recognize and publish for change. In order to do this we must pay constant attention to our customers’ needs and be willing to meet them flexibly in all departments.

- Each work we publish will maintain a standard of high quality as defined by its market’s needs and our personal standards.

- We recognize that our future success lies with the authors of the materials we publish, and we are committed to caring for their well-being with the same trust and responsiveness that we have among ourselves.

YOU KNOW US BY OUR AUTHORS

Robert Atchley, Earl Babbie, Judson Landis, Lloyd Saxton, John Weeks.

Names you recognize, and reasons why Wadsworth publishes sociology texts that get to the hearts of your courses and into the heads of your students. Quite simply, they are exceptional authors, and we know it takes exceptional authors to write exceptional textbooks. That’s why we’ve been seeking out — and finding — Atchleys, Babbies, and Landises for over 25 years. Add the expertise of our acquisitions, editorial, and production people and you get the high-caliber texts that you expect from us and that we expect from ourselves.

Lately, our authors seem to be outdoing themselves. But that doesn’t surprise us. Won’t you stop by Booth #67 and see for yourselves?

 Biological Politics
 Feminist and Anti-Feminist Perspectives
 Janet Sayers

 This highly readable and intriguing new study focuses on the ways in which biological arguments have been used against feminism, and the ways in which feminists have reacted to these arguments over the past century. Sayers takes issue with arguments such as physical strength, aggressiveness, and reproduction—and critically appraises the feminist response to them. $8.95 paper

 Social Relations and Human Attributes
 Paul Hirst and Penny Woolley

 This pioneering book explores the ground between the various social sciences, including anthropology, psychology, linguistics, and biology. The authors take a small number of broad topics such as mental illness, social conceptions of the body and death, and the intellectual consequences of printing, and examine them in order to reveal the many-layered character of social reality. The result is a fascinating new approach to the social sciences, covering the interaction between biology and culture, mental illness and personality, and witchcraft and rationality. $24.95 cloth, $8.95 paper

 Chiungu
 A Girl's Initiation Ceremony
 Among the Bembas
 Audrey Richards

 Audrey Richards' observation of the entire chiungu or female initiation rite is one of the few fascinating studies to deal exclusively with the initiation of girls into adult life. This classic ethnographic work shows how puberty rituals reflect tribal attitudes to sex, fertility, marriage and the rearing of children, and celebrate the attainment of sexual and social maturity. $8.95 paper
