Age and Gender: Gender Differentiation in a Life-Span Framework

President Alice S. Rossi and the 1983 Program Committee have developed a Program for the 78th Annual Meeting of the American Sociological Association that focuses on the theme "Age and Gender: Gender Differentiation in a Life-Span Framework". The rationale for the selection of this theme is rooted in the assessment that good progress has been made in research and theory on development and cohort perspectives on Age in one direction and studies of Sex and Gender in another. The time is now ripe to stimulate concerted efforts at theory-building and testing when the two central variables of Age and Gender are viewed simultaneously, by tracing gender development and differentiation along the life line and how this process differs historically and cross-culturally.

A Note on Scheduling

In past years, in order to accommodate the large numbers of simultaneous sessions and committee meetings while taking into consideration large audiences at sessions, meeting space was utilized in more than one hotel. This year, all activities have been scheduled into the headquarters hotel. This has resulted in the use of every public meeting room in the hotel, including some rooms with small seating capacities. Attempts were made to anticipate audience size when assigning sessions to rooms, but it is possible that you may find yourself in an overcrowded situation. Since all space has been utilized for the entire five days of the Annual Meeting, it will not be possible to move any sessions into a larger room.

ASA Executive Office—Windsor

The Headquarters Office will be staffed from Wednesday through Sunday by Executive Office personnel. The demands on staff time and equipment are limited to official ASA functions; secretarial services are not available. Individuals or groups requiring office equipment must arrange for the rental of this equipment directly with suppliers. For audio-visual supplies, GAVCO Audio-Visual is located on the ground level of the Renaissance Center (near the Westin Hotel coffee shop); throughout the Center are duplicating facilities and office supply stores.

ASA Information Desk—Ontario Foyer

The Information Desk is staffed by ASA Executive Office personnel who will be able to provide information on membership, subscriptions, and publications. Copies of the 1983 Guide to Graduate Departments and the current Biographical Directory of Members and Directory of Departments of Sociology are available for purchase, as are other ASA publications. Sample copies of ASA journals are also available for inspection. In addition, Teaching Resources Center materials are on display, free copies of catalogues are available, and new TRC materials are for sale.

Child Care—Monet and da Vinci

Child care is being provided by personnel from Briggs Childcare Consulting of Detroit. Care will be available during daytime program sessions (8 a.m. to 6:30 p.m.) for infants and older children. Evening care can be arranged on an individual basis; check with child care personnel for details. Parents may either arrange to take their children out for lunch or bring a bag lunch with them in the morning. Snacks will be provided.

Charges for those who did not pre-register their children for the Child Care Service will be $7.50 per child for a half-day (8:00 a.m.—1:30 p.m.) and $12 per child for the entire day. [For children using the Child Care Service for shorter periods, the half-day fee will apply in order to encourage more stable use, discourage frequent dropping in and out, and simplify payment.] Children who have not been pre-registered with the Service will be accepted on a space-available, first-come first-served, basis only.

NOTE: All parents using this service must also be paid registrants for the Annual Meeting.

Employment Service—Ontario West

The ASA Employment Service will again this year be under the very capable direction of Mr. and Mrs. Bill Clement and will be open Tuesday, August 30, from 12:30:5:00 p.m. and Wednesday through Saturday, 8:30 a.m.—5:00 p.m.

Facilities will be available for reviewing employment listings, exchanging messages, and interviewing. If you have pre-registered for the Employment Service, report to the Ontario West Hall as soon as possible to activate your file. If you have not registered, you should do so as early as possible. All persons using the Service must register for the Annual Meeting as well as for the use of the Employment Service. Once registered, you will be issued a pass permitting your entrance to the Service any time it is open. No one will be admitted without a pass. Fees for the use of the Employment Service are: ASA member applicants—$5; non-ASA member applicants—$20; Employers—$25.

Exhibits—Ontario East

All Annual Meeting attendees are encouraged to browse through the Exhibits located in the Ontario East Hall (Level 3). Exhibits open on Wednesday, August 31 and will close on Saturday, September 3. Exhibit hours are: 9:00 a.m. until 5:00 p.m. daily. See the "Directory of Exhibitors" listed elsewhere in this Program for names and booth numbers for all exhibitors.

A snack bar and coffee service will be located inside the Ontario East Hall for light breakfasts, lunches and snacks. Hours for this service are: Breakfast: 9:11 a.m.; Lunch/Snacks: 11 a.m.—3 p.m.

Paper Sales—Ontario West

Papers will go on sale at 2:00 p.m. on Tuesday at the price of $1.25 each. All session papers which were submitted to the Executive Office for duplication and/or distribution at the Annual Meeting appear on the list of "Available Papers" [free copies available in the Paper Sales Room]. Papers may be purchased as long as supplies last; orders for future delivery cannot be accepted. Requests for papers which have sold out or were not supplied must be sent directly to the author(s) and, in order to facilitate this procedure, a "Roster of Authors" which includes names and addresses of authors (in the case of multiple authors, the first named author is listed) may be purchased for $ 1.50. The Executive Office is not able to return unsoled copies of papers to individual authors after the Annual Meeting. However, authors may pick up remaining copies of their own papers (including those that the ASA duplicated) on Sunday, between 1:30 and 3:30 p.m.

NOTE: Persons wishing access to the Paper Sales Room must also be paid registrants for the Annual Meeting; badges will be required for entrance into this area.

Parking (Information Desk)—Ontario Foyer

The Renaissance Center has reserved parking spaces at a special conversion discount rate from August 30 (Tuesday) through September 4 (Sunday) for the exclusive use of ASA Annual Meeting registrants. The special rate of $4 per day without in and out privileges will apply to parking spaces located in "Lot B" on Beaubien Street between Jefferson Avenue and Atwater, on the east side of the Renaissance Center. Payment must be made upon each day's egress from the "B" Lot.

To qualify for the discount parking rate, Annual Meeting registrants should show their badges to personnel on duty at the Information Desk in the ASA Registration Area and request a parking validation which must then be presented to the parking lot cashier on exit from the lot.

Press—Windsor

Professor Fred Koenig, Tulane University, will again this year act as press coordinator; media representatives are invited to stop by the Windsor Room for press registration packets.
Roster of Pre-registrants—Ontario Foyer

A roster containing the convention addresses of pre-registrants is posted on a bulletin board in the Registration Area. A Locator File will be maintained at the ASA Information Desk as the meeting progresses.

Tours—Ontario Foyer

Those already enrolled for tours should have received their tickets with their name badges. Please check at the Tour Desk in the ASA Registration Area for any cancellations or changes in the Tour schedule. All tours will depart from the West Entrance of the Renaissance Center (near the Westin Hotel registration desk). Present tickets to tour guides when boarding buses. Some tickets are still available for tours; check at the Tour Desk for information.

Cancellations will not be accepted; you may, however, sell your ticket to someone else if you are unable to attend. Refunds for tours that are cancelled by the organizers will be made after the Annual Meeting.

Rossi (University of Massachusetts, Amherst) will preside and participants will include Anke Ehrhardt (New York Psychiatric Institute), David Giannola (Northwestern University), and Matilda White Riley (National Institute on Aging) (Session 198).

Thematic Sessions

It is customary for the President to select a theme for the Annual Meeting; for 1983, President Alice S. Rossi has chosen "Age and Gender: Gender Differentiation in a Life-Span Framework". The twelve Thematic Sessions organized by the Program Committee are devoted to investigating the many aspects of this theme and reflect the inventive thought, exploratory character, and wide scope of the Committee's deliberations. Organizers chosen for the Thematic Sessions were given considerable latitude regarding how they wished to present these topics and this is evident in the variety of exciting sessions outlined. For details on the topics and participants, refer to the following Sessions:

Wednesday, Sessions 15, 27, 33
Thursday, Sessions 68, 87
Friday, Sessions 111, 133, 144
Saturday, Sessions 168, 187
Sunday, Sessions 207, 221

Didactic Seminars

Designed to keep teaching sociologists abreast of recent scholarly trends and developments, Didactic Seminars are conducted by experts who are invited by the Program Committee and who are considered to be at the pioneering edges of a given field. Speakers will present pedagogical materials to explain specialized developments within their topic areas. Seminars are scheduled from two to four hours.

Attendence at the Didactic Seminars is by paid reservation only and is limited to 50 at each seminar. Those already enrolled should have received their tickets with their name badges, but should check at the Luncheon/Seminar/Tickets Desk in the Registration Area for any materials presenters might have provided for distribution. Those who did not reserve in advance but who wish to attend should check at the Luncheon/Seminar/Tickets Desk for possible openings.

All persons registering for Didactic Seminars must also be paid registrants for the Annual Meeting. No one will be admitted without a paid reservation; tickets will be collected at the door.

Didactic Seminars are scheduled throughout the meeting, as follows:

Session 1, Wednesday, 8:30 a.m.—New Techniques in Panel Analysis (David F. Greenberg and Ronald C. Kessler)

Mini-Course
For the 1983 Annual Meeting, the Program Committee has added the “Mini-Course” as a component of the Program. This course is designed to provide an in-depth review of “Joreskog Type Models” (Session 55) with Duane F. Alwin (University of Michigan) and Richard T. Campbell (Duke University) as instructors. Four modules, each approximately 2 hours in length, are planned and will be presented in the following sequence:

Thursday, September 1, 8:30 a.m.-12:30 p.m.
8:30-10:20 a.m.—Measurement issues and models
10:30 a.m.-12:30 p.m.—Linear structural equation models for latent variables

Friday, September 2, 8:30 a.m.-12:30 p.m.
8:30-10:20 a.m.—The LISREL-V program
10:30 a.m.-12:30 p.m.—Issues in the application of LISREL to latent variable Models

Attendance at this Mini-Course is by paid reservation only and is limited to 50. Those already enrolled should have received their tickets with their name badges, and they should check at the Luncheons/Seminar/Tickets Desk in the ASA Registration Area for any materials the instructors might have provided for distribution. Those who did not reserve in advance but who wish to attend should check at the Luncheons/Seminar/Tickets Desk for possible openings.

All persons attending the Mini-Course must also be paid registrants for the Annual Meeting. No one will be admitted without a paid reservation; tickets will be collected at the door.

Professional Workshops
To explore issues of importance to the professional rather than substantive concerns of Sociology as a discipline, the 1983 Program Committee has designed sixteen Professional Workshops to be held during the 1983 Annual Meeting. Topics to be covered by these workshops include:

- Finding the Right Place for Sociologists in the Business World (Session 3, Wednesday, 8:30 a.m.)

Teaching Workshops
Five Teaching Workshops on a variety of topics have been organized for the 1983 Annual Meeting. Attendance is open to all. Details may be found under the following sessions:

- Teaching Introductory Sociology: Computer-Assisted Instruction (Session 45, Wednesday, 4:30 p.m.)

Special Sessions
Included in the 1983 Program are eighteen Special Sessions which emphasize topics of special interest and timeliness. Special Sessions vary in format from panel discussions to paper presentations and attendance is open to all. Details may be found under the following Sessions: 18, 29, 36, 38, 70, 81, 90, 102, 113, 124, 135, 137, 155, 169, 191, and 209.

Luncheon Roundtable Discussions
A complete listing of luncheon topics and presenters is printed in the body of this Program under Session 28 on Wednesday, Session 50 on Thursday, Session 122 on Friday, and Session 177 on Saturday.

Some tickets are still available for all the luncheons; the numbers are listed at the Luncheons/Seminar/Tickets Desk in the ASA Registration Area. Also listed are the luncheon numbers for which the presenters have left materials for distribution to the participants prior to the roundtable discussion. Persons who have confirmed reservations should have received their tickets along with their name badges. If, however, your check and reservation request were received in the Executive Office too late for processing, a refund will be made at a later date. Please check at the Luncheons/Seminar/Tickets Desk. Ticket sales will be closed one hour before luncheon begins each day.

Cancellations will not be accepted later than 48 hours prior to the scheduled luncheon. You may, however, sell your ticket to someone else if you are unable to attend.

Historically, there have been problems concerning admittance to the luncheon room. In fairness to members who have paid for their reservations, your cooperation with the personnel in charge is essential. No one will be admitted to the room without a valid ticket. Observers are not permitted.
Informal Roundtable Discussions

A complete listing of topics and presenters for the Informal Roundtable Discussion Sessions, organized by Dan Clawson (University of Massachusetts, Amherst) may be found in the body of this Program under Sessions 2, 79, 146 and 189. These roundtable discussions are particularly valuable for those who are developing a set of new ideas and would like to have these explored further by colleagues with similar interests. They also offer an opportunity for those with similar scholarly, instructional or policy concerns to gather and initiate and expand networks.

ASA Section Activities

Section activities, frequently innovative and ranging in format from formal paper presentations to roundtable discussions to mini-conferences, are interspersed throughout the five-day schedule of the Annual Meeting and are open to all meeting attendees. As determined by the ASA Council, the number of sessions allocated to each Section is based on the size of the Section. For the 21 active sections (plus one in formation), there are a total of 95 separate program activities scheduled. The Section Council/Business Meetings and the Section-sponsored Program Sessions are summarized below for quick reference; for more information on titles of sessions, participants, and times, refer to the Program Sessions are summarized below for quick reference; for more information on titles of sessions, participants, and times, refer to the Program.

Film Showings

Film Session I: Saturday, September 3—Saturday, September 1—Brude B, 9:30-10:30 a.m.

CURRENTS OF COURAGE

A film by Terry Anderson and Lynne Hoffman Keating, Changing Currents Productions; color; 43 minutes. CURRENTS OF COURAGE documents a body of work within three decades of service as a sociologist. Yet, an intrinsic force in the film reveals the rare selflessness of a man who never sought personal gain from his efforts. The film hopes to sensitize its viewers to the values of personal courage and selflessness. The film focuses on Dr. Fred Crawford’s response to three areas of concern: The returning mental health patient faced with limited community resources; civil aggression within race relations; the impact of violence and the Nazi Holocaust on society. Changing Currents Productions, c/o C.R.S.C., Emory University, Atlanta, GA 30322, (404) 329-7525.

Film Session II: Saturday, September 3—Brude B, 10:30 a.m.—12:30 p.m.

AN ACQUIRED TASTE

Documentary directed by Ralph Arlyck; color; 26 minutes. A filmmaker turns 40 and casts a wry look back at the school, work, and media influences which have shaped his life (and all our lives) through four decades. The resulting film poses critical questions about the forces which fuel the pursuit of success—the American obsession with "number one". AN ACQUIRED TASTE is being used in high school, college, professional, and community settings to stimulate discussion on American values, male roles, growing up, career success, middle age, lifestyles, media influences and filmmaking. New Day Films, P.O. Box 315, Franklin Lakes, N.J. 07417; (201) 891-8240.

Film Session III: Saturday, September 3—Brude B, 12:30-2:30 p.m.

MAD RIVER: HARD TIMES IN HUMBOLDT COUNTY

Mark Freeman, Claire Schoen, and Jack Wilson, filmmakers and producers, Fine Line Productions, San Francisco; color; 54 minutes. Unemployment, Plant closures. Environmental pressure. MAD RIVER is a portrait of a rural community facing environmental and economic disaster. Humboldt County is the middle of the richest timberland in America. Redwoods 300 feet tall, 400 tons, 2000 years old—the tallest trees in the world—grow here. On one side are the environmentalists. On the other side are two of the largest timber corporations in the country. And caught in the middle are thousands of timber workers, their families, and a vanishing way of life. In approaching the issues of economic development and environmental protection, the producers have tackled sensitive issues and successfully portray the human impact of plant closures on workers and on the community. Fine Line Productions, 1101 Masonic Avenue, San Francisco, CA 94117; (415) 861-3885.

MOVING ON: THE HUNGER FOR LAND IN ZIMBABWE

Directed by Peter Eisen, California Newsreel; color; 52 minutes. Looking at Zimbabwe, the film explores the government's attempt to reconcile the need for a modern agricultural sector with the demands for land of a newly liberated population. The film focuses on the personal stories of two farming families—one white, the other black. In a personal and moving way, the film shows the country's vast resources and potential, its great need for development, and its vital role in demonstrating that the racial problems of southern Africa are not insoluble. California Newsreel, 630 Natoma Street, San Francisco, CA 94103; (415) 621-6196.

Film Session IV: Saturday, September 3—Brude B, 2:30-4:30 p.m.

COMING OF AGE

Feature documentary directed by Josh Hanig; co-produced with Dennis Hicks; 60 minutes. Hanig placed his camera inside various confrontational rap sessions in which teenagers from several social strata struggled to untangle their hostile and confused attitudes toward racial stereotypes, sexual relationships and family living. Filmed during a week-long encounter session at a camp in the San Bernardino mountains, COMING OF AGE is a fascinating look at the minds and thoughts of today's teenagers. New Day Films, P.O. Box 315-C, Franklin Lakes, N.J. 07417; (201) 891-8240.

ASA Business Meeting

The annual Business Meeting of the Association is scheduled for Saturday, September 3, at 4:30 p.m. (Columbus). Human Behavior in the Social Environment
A Social Systems Approach. Third Edition
Ralph E. Anderson and Irl Carter
Forthcoming in 1984
A comprehensive application of the social systems approach to the knowledge of human behavior necessary to people engaged in human service, and a demonstration that a unified approach to practice by these professionals is possible. In this revised and expanded third edition, the authors update and refine their application of these concepts.

Being Mentally Ill
Thomas J. Scheff
Forthcoming in 1984
This, now classic, original and controversial appraisal of the kinds of deviant behavior called "mental illness", incorporates the concepts of social process into a model of dynamics of mental disorders and suggests that some mental illness may be a volitional act of defiance. Approaching mental illness as a possible way of escape from the pressures of reality, the author reevaluates the "disease model" of the individual prominent in current psychiatric and psychoanalytic theory.

Zunz, an Annales-trained historian, presents the most comprehensive and systematic analysis yet done of the changing social structure of a major industrial city during its critical period of evolution. "The conclusions reached in this book are certain to be the focus of debate... and the study will undoubtedly help establish the direction of much future research on other cities."

Class, Sports, and Social Development
Richard Gruneau
Foreword by Charles H. Page
In noting the considerable recent work on the sociology of sport, the author argues that much of this analysis has been marked by a withdrawal from sociology's classical tradition. He attempts to recover that tradition and redirect significant aspects of it by focusing on the central questions of human agency and freedom in the development of sport in Western capitalism.

"A veritable tour de force, a lucid and elegantly written book which makes a major contribution both to the sociology of sport and to Marxist sociology"—Eric Dunning, University of Leicester.

Witchcraft, Magic, and Religion in Seventeenth-Century Massachusetts
Richard Weisman
Basing his work on the writings of scholars of the sociology of deviance as well as on the historical and theological background of the colonial witchcraft trials, Richard Weisman has produced an unusually comprehensive assessment of the origins of the seventeenth-century concern with the rise of witchcraft. Weisman argues that it was the 1692 Salem trials that featured accusations against prominent citizens and reversed the earlier pattern of focusing suspicion on the dispossessed of society. “We the People” and Others
Duality and America’s Treatment of its Racial Minorities
Benjamin B. Ringer
This monumental new book examines America’s treatment of its racial minorities from the time the English first settled in Virginia until the present. The author explains this treatment in terms of the two-fold processes of colonization and colonialization which imprinted a racial duality on the 13 colonies. He shows the extent to which racial principles were embedded in the nation’s legal and political institutions throughout American history, and how these were directed against various racial minorities at different points in time.

This book reconstructs a decisive period in the history of science when techniques for managing the mind were developed. It explores the institutional and ideological conditions in which the new medical psychology emerged, charts the development of separate asylums for the insane, and describes the notions about mind, prevalent at the time, against which the discipline defined itself.

The Inner Circle

Drawing upon hundreds of interviews with corporate chief executives and a wide range of documents and statistical materials, this often startling book is a clear window onto this heretofore hidden world.

WORK AND SOCIETY: An Introduction to Industrial Sociology
Curt Tausky, University of Massachusetts
December 1983/c.150 pages/paper

F. E. PEACOCK PUBLISHERS, INC. ITASCA, ILLINOIS 60143
This first volume in the major new series, Critical Social Thought, attempts to repair the severed connection between social psychology, the culture of everyday life, and the structures of society, along the lines of the Frankfurt School's critique of knowledge. In presenting a coherent theoretical social psychology, and by introducing Marxist categories such as commodity fetishism, exploitation, and alienation, it enables social psychologists to overcome their cultural isolation.

"A lively, incisive and provocative inquiry into the character of social psychology—its present predicaments and its future potentials. Particularly important is its analysis of the ideological roots of contemporary scientific practice—both methodological and theoretical." —Kenneth J. Gergen

"Wexler's treatment of equity theory and intimacy are the most original and insightful in the literature. His ability to apply Marxist concepts of exploitation and labor to intimacy and the self constitute a tour de force without equal." —Daria Bramel

COMMUNITY PLANNING AND CONCEPTIONS OF CHANGE

Peter Marris

"Marris's modest title hides an ambitious purpose: to rethink the basic assumptions of local and national social planning—and even of the welfare state. In an incisive analysis he shows how the new international economy and the multinational corporations dominating it have overpowered local and national governments and thereby invalidated many conventional planning solutions. In his closing chapters, Marris suggests the outlines of a new paradigm for social planning, as well as some political strategies for what can be done about the new economic forces arrayed against liberal and radical reformers. The book is essential reading for policy-makers and analysts, for planners and social scientists, for activists and citizens generally." —Herbert J. Gans, Columbia University

The Microfoundations of Macrosociology
Edited by Michael Hechter
Those interested in broad questions of social order and social change have long been skeptical of rational choice theories. Many believe that individual-level explanations are ill-suited to account for group-level phenomena.
This book explores whether these controversial approaches can offer better explanations of key macrosociological problems than can conventional theories. Included are new theoretical perspectives on long-term social change, the state, and collective action using rational choice premises.

Socio-Medical Inquiries
Recollections, Reflections, and Reconsiderations
Irving Kenneth Zola
In lively, accessible prose, Zola examines the areas where medicine, culture, and society intersect. He discusses why people see a doctor, why they don't take their medicine, and how different ethnic groups approach medical care, as well as topics such as body awareness, self-medication, and the self-help movement. This is an assumption-shattering and thought provoking book.

Highlights of This Edition

- Boxed inserts show how sociology and sociologists are involved in virtually all fields of endeavor and all walks of life
- Completely new illustration program in this edition
- All citations and data are updated

Perfect for today's students for 3 important reasons:

1. It is a major revision, incorporating more sociological analysis, a strengthened historical perspective, and many new topics for a comprehensive overview of the field.

2. Its study guide is packaged with the text as a single unit for a more complete learning experience.

3. Low price. The text and study guide together cost far less than most hardcover texts alone.

Prepublication reviews rate it #1:

"The revised edition is a major improvement over the current edition. Specifically, the new edition makes sociology interesting. The language is bright; the cadence is smoother and more current. I can appreciate this new edition that takes potentially deadening subjects and makes them conversational and modern."
