Sociology in America

About 150 years ago, Alexis de Tocqueville wrote the classic Democracy in America which examined the promise and problems of the U.S. For the 1988 Annual Meeting we have borrowed part of de Tocqueville's title to examine the promise and problems of sociology in the U.S. Specifically, the 1988 Thematic Sessions will use sociological and other analytic tools to ask what sociology's roles are and have been, as well as what they should be. We want to explore the result of our work as researchers, writers, teachers and practitioners—but also as critics, commentators and policy analysts—in order to discover what sociology and sociologists have done with, for, and to, society as a whole and some of its major sectors, from underdogs to top dogs.

In this process we will look once more at a number of the traditional fields and topics of the discipline, as well as some new ones, but always with the prescript "sociology of," to learn whether and how we have affected the institutions, organizations and people relevant to these fields and topics. In addition, we shall ask what we have done, are doing, and should be doing for and to ourselves. (Some of the Special Sessions will examine our relations with several other social science disciplines.) The ultimate purpose of the 1988 Thematic Sessions is to foster a disciplinary self analysis that will help us to enhance the intellectual and social usefulness of sociology in the years to come.

Didactic Seminars

Didactic seminars are designed to keep sociologists abreast of recent scholarly trends and developments. Experts considered to be at the forefront of a given field are invited by the Program Committee to conduct these sessions. Seminar speakers will present materials to explain specialized developments within their topic areas.

Seminars are scheduled for two or four hours. Please see the listing below for session details and brief seminar descriptions provided by the speakers.

Attendance at each Didactic Seminar is limited to 50, and pre-paid registration is required. Seminar fees are $15 each, and all persons registering for seminars must also be pre-registrants for the Annual Meeting. Those already enrolled should have received their tickets with their name badges. Those who did not reserve in advance but who wish to attend should check at the Tickets Desk for possible openings. No one will be admitted without a paid reservation; tickets will be collected at the door.

Session 38, Wednesday, August 24, 2:30 p.m.-4:20 p.m.
Teaching Sociology Through Film and Video. E. Barbbara Phillips, San Francisco State University
This session will cover four uses of film/video in undergraduate teaching: (1) to illustrate concepts, (2) to conduct research, (3) to offer "acquaintance with" a topic, and (4) to encourage student creative involvement. Both class and student/teacher-produced film/video will be discussed. Practical techniques (e.g., how to prepare students for what they'll hear and see, how to use video for oral histories and role-playing scenes) will be emphasized. Request for participants: bring current syllabi to the session.

Session 62, Thursday, August 25, 8:30 a.m.-12:20 p.m.
Logit Regression Analysis. John Fox, York University
Unlike the broadly applicable and more familiar linear models for regression analysis and analysis of variance, linear logit models are appropriate for analyzing data when the dependent variable is qualitative/categorical. Like linear models, however, logit models are capable of handling one or several independent variables, which may be both qualitative and quantitative; in fact, linear models and logit models are structurally similar. Logit models, therefore, bring the power of linear models to the analysis of qualitative data. This brief seminar will introduce logit analysis both for categorical and several-category ("polytomous") data. Some familiarity with linear regression analysis is assumed. Topics to be discussed include: (1) Why linear regression is inappropriate for qualitative data; (2) Specifying, estimating, testing, and interpreting logit models for dichotomous data; (3) Extending the logit model to polytomous data; (4) Computer software for fitting logit models to data.

Session 56, Thursday, August 25, 2:30-4:20 p.m.
Historical Methods. Larry Griffin, Indiana University; Jill Quadagno, Florida State University
Sociology has become substantially more "historical" in recent years, but historical approaches to sociological phenomena have tended to split along quantitative/qualitative lines. We believe this division impedes historical sociological inquiry and suggest that many areas of "historical sociology" could benefit from a merging of the two analytic perspectives. This seminar will develop the essentials of qualitative and quantitative historical analysis and show how the two methodologies can and must be integrated to analyze properly aspects of one historical case—the New Deal. We intend to cover (a) the major descriptive statistics and causal techniques (e.g., time-series regression) used in quantitative historical research, (b) the techniques for accessing and using archival records, oral histories, government documents and other qualitative materials, (c) primary sources for both types of information, and (d) useful computer software. A working knowledge of basic statistics is assumed.

Session 119, Friday, August 26, 10:30 a.m.-12:20 p.m.
New Methods for Cultural Studies. Wendy Griswold, University of Chicago
The sociology of culture's increasing methodological self-consciousness has promised research methods that move beyond the polarities of interpretative versus institutional analysis, thick description versus positivism, the search for meaning versus the uncovering of structure. This seminar will review recent programmatic statements and empirical work to see the extent to which that promise is being fulfilled and along what lines. We shall propose a framework for cultural analysis that attempts to bridge the humanistic/scientific gap, and shall then develop the research implications of such a framework.

Session 144, Friday, August 26, 2:30-4:20 p.m.
Teaching Theory. R. Stephen Warner, University of Illinois-Chicago; Mary Jo Neitz, University of Missouri-Columbia
This seminar is directed toward those currently or prospectively teaching survey courses in contemporary sociological theory for majors at the advanced undergraduate or beginning graduate level. Topics will be on approaches and techniques oriented to theories (in the plural) as generators of substantive insights into empirical social phenomena. Stress will be placed on teaching theoretical tools to thinking about sociology as part of the culture of sociology. Representative figures from functionalist, conflict, interactionist, and feminist schools of thought will be used as exemplars. A packet of 3-4 brief articles will be sent to pre-registrants in advance of the Annual Meeting.

Session 181, Saturday, August 27, 10:30 a.m.-12:20 p.m.
Ethnographic Methods: Approaches to Data Gathering and Analysis. Jacqueline Wiseman, University of California-San Diego
This seminar will start with the philosophy of science underpinning qualitative, ethnographic approaches to data collection from a sociological perspective. Strengths and problems of such approaches as observation, participant observation, depth interviewing, the use of unobtrusive measures, and case studies will be examined. Gaining field access, maintaining rapport, taking notes, levels of data coding, and preliminary analysis will be covered. Analytic tools for organizing data, the use and creation of generic concepts, and problems of reliability and validity will also be discussed. (No background necessary for this seminar.)

Session 203, Saturday, August 27, 2:30-4:20 p.m.
Event History Analysis. Nancy B. Tuma, Stanford University; Lawrence Wu, University of Wisconsin-Madison

Roundtable Discussions

This popular program component is designed to bring together small groups of people interested in discussing specific topics. The Roundtable Organizing Committee (chairred by Kirk Eifflon, Georgia State University) reviewed proposals and selected topics and presenters to guide discussions. Since several discussions are held simultaneously in one large meeting room, no audio-visual equipment or recording devices may be used and there are no formal paper presentations.

The two types of roundtables, Luncheon Roundtable Discussions and Informal Discussion Roundtables, are similar except that one involves purchase of a luncheon ticket. Informal Roundtable Discussions are open to all convention attendees; no tickets or reservations are required.
Roundtables, continued

are needed. For details on Informal Roundtable Discussions, refer to Sessions 51, 65, 111, 157, and 163.

Tickets for Luncheon Roundtables (Sessions 28, 130) are $16.00 per luncheon and are available to persons who have pre-registered for the Annual Meeting. A maximum of ten (10) tickets are available for each luncheon. Tickets are still available for some luncheons; please check at the Tickets Desk in the Convention Level Lobby for availability of luncheon seats. Because of the advance guarantees required for the luncheons, ticket cancellations cannot be accepted. You may, however, sell your ticket to someone else if you are unable to attend.

Note: No one will be admitted to the luncheon room without a ticket; no observers are permitted.

Tours

An easy and enjoyable way to explore and learn about this year’s host city is to participate in at least one or perhaps several of the special Atlanta tours planned by Charles Jaret, Georgia State University. Atlanta offers myriad opportunities for getting to know its history and viewing its change into a fast-rising metropolis. Atlanta tours feature myriad opportunities for getting to know its history and viewing its change into a fast-rising metropolis. Atlanta offers myriad opportunities for getting to know its history and viewing its change into a fast-rising metropolis.

TOUR 1: Atlanta Historical Society

Wednesday, August 24, 8:30 a.m.-12:30 p.m.

Tour Leader: Tullie Smith, Atlanta Historical Society

You can get a good overview of Atlanta history by making a trip to the Atlanta Historical Society. Indeed, for sociologists interested in how history is publicly interpreted, this tour will be of great interest, as what you will see is neither an “academic” history nor a “people’s” history of Atlanta; there’s some of that, but it’s more of a presentation of Atlanta’s past as seen by Atlanta’s “establishment.” In the Atlanta Historical Society museum there are two exhibits—one is on Atlanta in the Civil War, and the other, titled “Atlanta Resurgens,” was created last year to celebrate Atlanta’s 150th birthday and covers the growth of Atlanta from the Reconstruction era to the present. The tour of the Historical Society also includes the Swan House, a luxurious Palladian-style mansion built in 1929, and the Tullie Smith House, which is an actual 1840s plain-style Georgian plantation complex. (Bus/Walking Tour)

TOUR 2: Herndon Home and the Atlanta University Area

Wednesday, August 24, 12:00 Noon-3:00 p.m.

Tour Leader: Hubert B. Ross, Atlanta University, and Gloria Pedgert, Herndon Home staff

Atlanta is home to a consortium of historically black institutions of higher learning—the Atlanta University center (consisting of Spelman, Morehouse, Clark, and Morris Brown College, the Interdenominational Theological Center, Atlanta University, and the Morehouse Medical School). Of special interest to us is the fact that Atlanta University was one of the first institutions to establish a sociology program, and the department recently celebrated its 90th birthday. Scholars like W.E.B. DuBois, E. Franklin Frazier, and many others spent parts of their careers at Atlanta University schools. Our trip to the Atlanta University area will begin with a tour through the Herndon Home, an exquisite fifteen room mansion completed in 1910 for Alonzo Herndon and his family. Although Herndon was born a slave, in the late 19th and early 20th century he became a very successful businessman and founded the Atlanta Life Insurance Company, one of the nation’s leading black-owned insurance companies. After the Herndon Home we’ll go on to see some of the Atlanta University campus areas, including an exhibit featuring DuBois’ work, and also look at some points of interest in the adjacent neighborhood. (Bus/Walking Tour)

TOUR 3: Religion in Atlanta: A Tour of Area Churches

Wednesday, August 24, 12:30 p.m.-5:00 p.m.

Tour Leader: Nancy T. Ammerman, Emory University

Participants in this tour will experience the significance of religion in the New South. Beginning with a sampling of historic downtown churches—black and white—the tour will progress through the heart of the city’s economic/religious establishment and around its sprawling perimeter, stopping at a variety of churches, from traditional to innovative; from liberal to conservative; and from politically active to politically uninvolved. You’ll talk with ministers about their roles, congregations, and religious practices. (Bus/Walking Tour)

TOUR 4: Auburn Avenue and the Martin Luther King, Jr. Historic District

Thursday, August 25, 9:00 a.m.-12:15 p.m.

Tour Leader: Russell W. Irvine, Georgia State University and Dean Rowley, National Park Service

No other street in the South, perhaps in the entire nation, has as many historically important black institutions as it “Sweat” Avenue. On this excursion, you’ll take a bus to the end of the street and then walk back down it (about two miles) stopping off at several points of interest. The trip will first take you through the Martin Luther King, Jr. National Historic Site and Preservation District, which includes the birth home of Martin Luther King, Jr., the Martin Luther King, Jr. Center For Nonviolent Social Change, and Ebenezer Baptist Church (all of which you will enter and visit). You’ll then go down Auburn Avenue and see many other significant black institutions, including the headquarters of the Southern Christian Leadership Conference, some prominent churches, the nation’s oldest black daily newspaper and the first black-owned radio station, a black arts center, the headquarters of the Atlanta Life Insurance Company, and phase one of AFEX (the African American Panoramic Experience), which is now a small black history museum but will eventually be a tremendous, unique multi-media exhibition of Afro-American culture and accomplishments. (Bus/Walking Tour—Limited to 30 participants)

TOUR 5: U.S. Centers for Disease Control

Thursday, August 25, 8:30 a.m.-12:30 p.m.

Tour Leader: Richard M. Levinson, U.S. Centers for Disease Control and Emory University

[Co-sponsored by the ASA Section on Medical Sociology]

Sociologists and CDC administrators will present an overview of the agency’s functions and activities; describe the roles played by sociologists at CDC and the kinds of sociological research taking place; and provide information about the potential for CDC funding of sociological research outside the agency. Visitors will have some opportunity to view parts of the CDC facility, and the bus will pass through the Druid Hills residential section of Atlanta and Emory University campus. (Bus/Walking Tour)

TOUR 6: Cable News Network (CNN)

Friday, August 26, 9:30 a.m.-12:00 Noon

Tour Leader: Jacqueline Bole, Georgia State University, and Cable News Network staff

Closer to our convention hotel is CNN Center, where Ted Turner’s communications empire is based. For sociologists interested in the mass media or the social construction of “the news”, this tour of CNN headquarters, where Cable News Network and Headline News are produced, should be fascinating. We will walk over to it from the hotel (about five or six blocks) and then be led on a tour of a working newsroom, technical support areas, and the studio where you’ll get a chance to learn about the process of shaping a day’s news stories. (Walking Tour—Limited to 40 participants)

TOUR 7: Downtown Atlanta

Friday, August 26, 10:00 a.m.-12:30 p.m.

Tour Leader: Donald Reitzes, Georgia State University, and Atlanta Preservation Center staff

(continued on next page)
For those who like the scene right at the center of a city, there’s a walking tour just for you—a trip through Atlanta’s new and old downtown districts. You’ll get a feel for the street life here, learn about attempts to revitalize parts of the downtown, and get a close-up view of the most historic and important buildings in downtown Atlanta. You’ll learn some of our architectural history by seeing buildings of many styles, look at a downtown park where a few of William H. Whyte’s principles of good urban “open space” design were applied, and you’ll learn of the key business leaders, families, and organizations that created Atlanta’s early high-rise district and determined its later direction. (Walking Tour—Limited to 20 participants)

TOUR 9: Atlanta’s Renovated Neighborhoods
Saturday, August 27, 9:00 a.m.-12:30 p.m.
Fee: $15.00
Orientation Area: International Hall South
Tour Leader: Charles Jeret, Georgia State University
In Atlanta, like many other cities, a limited number of neighborhoods have experienced partial or complete renovation or gentrification. This development has attracted a great deal of attention, and because of its mixed blessings and costs, it has created community and controversy. For anyone interested in seeing how this issue has played out in Atlanta, there will be a tour of selected renovation neighborhoods. We’ll combine bus and walking to go through several neighborhoods (Inman Park, West End, Cabbagetown, Grant Park) that exhibit interesting and very different patterns and degrees of renovation, and you’ll see the problems and prospects they face. (Bus/Walking Tour—Limited to 15 participants)

TOUR 8: Atlanta Social History Tour
Saturday, August 27, 12:30 p.m.-3:30 p.m.
Fee: $15.00
Orientation Area: International Hall South
Tour Leader: Cliff Kuhn, Georgia State University
Perhaps the best way to get a broad overview of Atlanta, past and present, is by going on this social history bus tour. As you roll through the downtown and close-in neighborhoods, you’ll observe the impact of the railroads, the trolley, and the auto in the city’s development; you’ll see how residential areas reflect racial and class divisions, and learn about some important episodes in Atlanta labor history; you’ll get a feel for Atlanta’s popular and high culture, its race relations, politics, and its role in the regional economy. (Bus Tour)

Member Orientation and Welcoming Party

All new members of the Association, and those who would like to know more about ASA’s governance structure and how to become involved in ASA activities, are invited to the Member Orientation and Welcoming Party on Wednesday, August 24, from 8:30-8:15 p.m. in Marquis Ballroom Salon I.

This welcome is sponsored by the ASA Committee on Membership. Members of ASA Committees and Sections and several ASA officers will be on hand to discuss avenues for formal and informal involvement in the Association. Refreshments will be provided along with the free information. New members and first-time meeting participants are particularly encouraged to be present for this informative event!

DAN

The sixteenth annual Departmental Alumni Night (DAN) will be held on Wednesday at the close of the first evening plenary session, approximately 10:30 p.m., in the Imperial Ballroom Salon B. Just find the banner from the institution you attended, served, are serving, or hope to serve, and meet colleagues to reminisce about graduate school days, catch up on the latest gossip, and enter into the free-wheeling discussions on the future of sociology.

Each graduate department of sociology in the United States and Canada was invited to fly its banner and wave its signpost to attract alumni and friends. A “home base” will also be provided for sociologists in business and industry as well as for international scholars and guests.

Make sure your meeting plans include the social event that brings all your friends together in one place at one time!

Honorary Reception

Following the Presidential Plenary and Awards Ceremony (Session 106, Thursday, 4:30 p.m.), all plenary attendees are cordially invited to an Honorary Reception for President Gans and the award recipients.

ASA is pleased to announce the following co-sponsors for this special reception: Department of Sociology, Duke University; Department of Sociology, Emory University; Department of Sociology, University of Georgia; Department of Sociology, Georgia State University; Department of Sociology, University of North Carolina-Chapel Hill; and The Southern Sociological Society.

ASA Business Meeting

The annual ASA Business Meeting will begin at 8:30 p.m. on Saturday, August 27. All members of the ASA are encouraged to attend to hear Association officers present their reports to the membership and to consider resolutions from ASA members offered for discussion and action.

Resolutions for the Business Meeting must be delivered to the ASA Headquarters Office (Bombay Room) in the Marriott Marquis before 5:00 p.m. on Friday, August 26. Each resolution must indicate the name and affiliation of the submitter and identify the person who will actually present the resolution at the Business Meeting. Those received before the deadline will be posted in the ASA Registration Area so that members may become familiar with upcoming business. Resolutions submitted to the Executive Office by the Friday deadline will be given preference on the Business Meeting agenda; unposted resolutions will be permitted, up to the limit of time available before the 10:20 p.m. adjournment.

Reminder . . . Only current voting members of the ASA may submit, present, discuss and vote on Business Meeting resolutions.

Student Hospitality Room

Provision has been made for a hospitality room for students attending the Annual Meeting. The Calgary room on the Convention Level will be open from 8:00 a.m. to 6:00 p.m., while in the Imperial Ballroom Salon B. From 8:00 a.m. to 4:00 p.m. on Saturday, and from 8:00 a.m. to 4:00 p.m. on Sunday, provide a place for students to meet, caucus, make dinner arrangements, etc. Some refreshments will be provided occasionally each day. ### ASA Information—Convention Level Lobby

The Information Desk is staffed with ASA Executive Office personnel who will be able to provide information on membership, subscriptions, and publications. Copies of the 1988 issues of the Guide to Graduate Departments, Directory of Departments, and Directory of Members, and the cumulative journal index will be available, as are other ASA publications. Samples copies of ASA journals are available for inspection.

### ASA Office—Bombay, Cluster 2

The Headquarters Office will be staffed from Tuesday through Sunday by Executive Office personnel from Washington, DC. The demands on staff time and equipment are limited to official ASA functions; secretarial services are not available.

### Child Care—Danube/Tigris, Cluster 4

A child care program is being provided by Gloria Humphrey and her staff from Atlanta's Camp Kid. Care will be available during the daytime program sessions (8:00 a.m. to 6:30 p.m.) for infants and toddlers. Evening care must be arranged on an individual basis with babysitting personnel.

We are pleased to announce that Wadsworth Publishing Company and the Sociologists for Women in Society have generously offered to help co-sponsor the 1988 Child Care Program, thus defraying some of its expenses. We thank Wadsworth and SWS for assisting ASA in providing another quality kinder-convention experience for your children.

Lunch and snacks will be provided; however, parents may arrange to take their children out for lunch or bring a special bag lunch with them in the morning if they prefer.

Charges for those who did not pre-register their children for the Child Care Service will be $45.00 per child for a half day (8:00 a.m.-1:30 p.m.) and $65.00 per child for the entire day. (For children using the service for shorter periods, the half-day fee will apply in order to encourage more stable use, discourage frequent dropping in and out, and simplify payment.) Children who have not pre-registered with the service will be accepted on a space-available, first-come, first-served basis only.

Reminder: All parents/guardians using this service must also be paid registrants for the Annual Meeting.

### Didactic Seminar Information—Convention Level Lobby

Those already enrolled for seminars should have received their tickets with their meeting packets. Some tickets may still be available for Didactic Seminars; check at the Tickets Desk in the Convention Level Lobby for up-to-date information.

Seminar tickets are non-refundable and cancellations cannot be accepted. You may, however, sell your ticket to someone else if you are unable to attend.

### Employment Service—International Hall North

The 1988 ASA Employment Service will be open from 1:00-5:00 p.m. on Tuesday, August 23, and from 8:30 a.m. to 5:30 p.m. on Wednesday through Saturday, August 24-27. The service will not be open on Sunday, August 28.

Facilities will be available for reviewing employment listings, exchanging messages, and interviewing. If you have pre-registered for
the Employment Service, report to International Hall North as soon as possible to activate your file. If you have not registered, you should do so as early as possible.

All persons using this Service must register for the Annual Meeting as well as for use of the Employment Service. Once registered, you will be issued a pass permitting your entrance to the Service any time it is open. No one will be admitted without a pass. Fees for use of the Employment Service: ASA member applicants—$10; non-member applicants—$25; Employers—$50.

During the Annual Meeting in Chicago last year, 54 employers listed 86 openings, including 25 positions outside academia, and 276 candidates registered with the Service. Over 600 interviews were scheduled.

Exhibits—International Hall South

All Annual Meeting attendees are encouraged to browse through the Exhibits located in the International Hall South. Exhibits open on Wednesday, August 24, and close on Saturday, August 27. Exhibit hours are 9:00 a.m. to 5:00 p.m. on Wednesday and Thursday, August 24-25; 10:00 a.m. to 7:00 p.m. on Friday, August 26; and 9:00 a.m. to 2:00 p.m. on Saturday, August 27.

Plan your schedule to include several visits to the 1988 ASA Exhibits to browse through the latest publications, explore current computer hardware and software, chat with representatives of statistical and information literature, enjoy the local art and sculpture display, and lunch with colleagues to the sounds of live harp music in the lounge/food area at the back of the hall. See the Directory of Exhibitors listed elsewhere in this Program for names and booth numbers for all exhibitors. Look through the Program for special ads too!

Luncheon Roundtable Information—Convention Level Lobby

Those already enrolled for luncheons should have received their tickets with their meeting packets. Some tickets may still be available for luncheon discussions; check at the Tickets Desk in the Convention Level Lobby for up-to-date information.

Luncheon tickets are non-refundable and cancellations cannot be accepted. You may, however, sell your ticket to someone else if you are unable to attend.

Locator File—Convention Level Lobby

Locator cards will be filled out by convention attendees as they pick up their registration packets. These cards will then be available for reference at the ASA Information Desk during the meeting to help colleagues contact each other while in Atlanta. Message Exchange boxes will be provided in the lobby area at the entrance to Meeting Cluster 3.

Media—Press Room, Cluster 2

Media representatives are invited to stop by for registration packets and interview assistance.

Paper Sales—International Hall South

The 1988 Paper Sales Room will be open from 1:00-5:00 p.m. on Tuesday, August 23; 8:00 a.m.-5:30 p.m. on Wednesday through Saturday, August 24-27; and 8:00 a.m.-1:00 p.m. on Sunday, August 28. Papers will be available at the price of $2.00 each. All eligible papers which were submitted to the Executive Office for duplication and/or distribution at the Annual Meeting appear on the list of "Available Papers" (copy included in your registration packet). Authors who indicated that they would bring copies with them to the Annual Meeting are urged to deliver them to the Paper Sales room as soon as possible upon arrival.

Papers may be purchased as long as supplies last; orders for future delivery cannot be accepted. Requests for papers which have sold out or were not supplied may be sent directly to the author[s]. In order to facilitate this procedure, a "Roster of Authors" which includes names and addresses of authors may be purchased for $2.00. Papers may also be available through Sociological Abstracts, Inc.; check the abstracts booklet for information.

The ASA Office is not able to return unsold copies of papers to individual authors after the Annual Meeting. However, authors may pick up remaining copies of their own papers on Sunday, August 28, after 11:00 a.m.

Note: All persons wishing access to the Paper Sales Room must be paid registrants for the Annual Meeting; badges are required for entrance into this area.

Resources for Attendees with Special Needs—Convention Level Lobby

The ASA Information Desk will coordinate resources during the convention week for registrants with physical disabilities who are attending the Annual Meeting.

If you sent in a special services request prior to the meeting, please check in at the ASA Information Desk on your arrival to ensure that you receive the assistance you need.

SOCIOLOGY

Social Problems: Issues and Solutions
Second Edition
Charles Zastrow, University of Wisconsin-Whitewater

Most introductory social problems texts have described and analyzed social problems without offering much reason for optimism. This useful introductory text, newly revised, not only explores the nature and causes of our most urgent contemporary social problems, but also explores ways they can be reduced or eliminated. Written from an applied sociology perspective in easy-to-read, jargon-free language, Social Problems uses case histories and the findings of recent research to bring discussion and understanding out of the realm of pure theory. Instructor's resource manual.
ISBN 0-8304-1197-6 cloth

The new edition makes it the most up-to-date and satisfying book on the market. Collins presents the sociology of the family in all its aspects as a social institution that operates according to certain identifiable principles; as a product of specific historical conditions, among them the conditions that have favored to varying degrees male or female power; and as an economic entity in which property, work, and wealth are divided in various ways. STATISTICS FOR SOCIAL DATA ANALYSIS
Second Edition
By George Bohrnstedt, Indiana University and
David Knoke, University of Minnesota

The most important departure from tradition in this book, as was true in the First Edition as well, is its requirement that students constantly are confronted with actual social data and questions drawn from actual social research contexts. A hands-on approach to statistics through actual data analysis, the authors believe, is the only way for the students to acquire a feel for what social research is all about.

Social Change in the United States, 1945–1983
by William Issel

Incorporating recent historical research, William Issel examines the influence of post-war capitalism on contemporary America, with its mixture of poverty and political inequality, affluence and economic growth.

"Although his study is refreshingly compact, it considers in some detail the decline of the American cities, and the shift from goods-production to service employment, the shift of economic and political power from northeast to southwest, the struggle for racial and sexual equality and the persistence of poverty."

—San Francisco Examiner-Chronicle

We ran this program two different ways on the same machine.

SAS/PC* (the competition) took 2 minutes 52 seconds, 640K, and 8.5 Meg of disk space. It costs $370 the first year, plus $190 per year thereafter.

The BASS SYSTEM* (our product) took 25 seconds, 384K, and 1.2 Meg of disk space. It costs $299 one time, with occasional updates at $35.

Both methods got essentially the same answers, produced similar printed output and produced similar log files. We used a 16 MHz 80386 computer equipped with an 80387 and a hard disk. No special cache or other memory resident programs were used. We used SAS/PC version 6.03 and The BASS SYSTEM version 88.10. The dataset had one thousand observations.

You're a professional data analyst—you analyze these numbers and decide. We'd like to help. Call or write for information, or, better yet, let us send you The BASS SYSTEM on 90 day approval.

Diane Barthel
"... exceptionally powerful. [Barthel] analyzes the almost painful ways in which women are seduced by advertisements to accept their low self-image and the advertiser's solution... The moral for feminists to draw is that although there are many miles to go before we sleep, Barthel's work will keep us on our toes."—Jessie Bernard

Men and Masculinity

Intended to provide a forum for new developments in theory and research that use masculinity as the lens through which to view specific historical or contemporary phenomena, the series will include a wide range of disciplines—history, sociology, anthropology, psychology, literary criticism—as well as interdisciplinary studies. It will contribute to our understanding of gender as a crucial organizing principle of social life—exploring the varieties of men's experiences, presenting new works on the social construction of gender, and reinterpreting well-known issues through the prism of masculinity.

The first title in the Men and Masculinity series will be published in Fall 1989. Proposals and manuscripts may be submitted to the editors.

CultureTexts

General Editors: Arthur and Marilouise Kroker

CultureTexts is a series of creative explorations in theory, politics and culture at the fin-de-millenium. Thematically focussed around key theoretical debates in the postmodern condition, the CultureTexts series challenges received discourses in art, social and political theory, feminism, psychoanalysis, value inquiry, science and technology, the body, and critical aesthetics. Taken individually, contributions to CultureTexts represent pioneering theorizations of the postmodern scene. Taken collectively, CultureTexts represents the forward, breaking-edge of postmodern theory and practice.

Cultural Politics

General Editors: Jonathon Dollimore and Alan Sinfield

"This series is a response in writing to what the contemporary world has been teaching us in practice: that culture and politics, literature and literacy, the arts and their institutions, are deeply connected and in serious analysis inseparable. In bringing together many new kinds of work it is an important practical step forward." —Raymond Williams

Cultural Politics, a new series from Manchester University Press, crosses traditional disciplinary boundaries, drawing on literary theory, feminism and sexual politics, Marxist and cultural studies. These books and the ensuing volumes in the series examine such diverse topics as Shakespeare, soap opera, cinema, modern Ireland, landscape gardens, 1980s popular music and many others. These subjects are united by an approach that combines historical and cultural context, theoretical method, political commitment and textual analysis — in short, Cultural Politics.

An invitation to become a member

The American Anthropological Association, founded in 1902 to advance anthropology in all its aspects, is the world's largest organization of individuals interested in anthropology. Its purposes are to encourage scholarly and professional communication among anthropologists and to promote the public understanding of anthropology and its use to solve human problems. The AAA carries on the tradition of holism. Anyone with a professional or scholarly interest in anthropology is invited to join.

Every member receives the Anthropology Newsletter, published nine times a year, which reports grant and support opportunities, meetings of interest, new publications, current developments affecting the profession, and Association news. Members select unit memberships that include subscriptions to the American Anthropologist, American Ethnologist, Ethos, Anthropology and Education Quarterly, Anthropology and Humanism Quarterly, Cultural Anthropology, Medical Anthropology Quarterly, and City & Society. Subscriptions to publications apart from membership are also available. Discounted dues are available to students, foreign members, and spouses of members. Members also receive reduced rates for occasional publications, annual meeting registration, placement service, and other programs.

Familiar Strangers
Gypsy Life in America
Marlene Sway
“Makes a major contribution to our understanding of Gypsies, but perhaps more importantly to the literature on middleman minorities. Sway goes beyond Blalock’s groundbreaking work in this area, adding considerable refinement and sophistication to a major theoretical perspective in the field of ethnic minorities. The Gypsies provide, as Sway illustrates wonderfully, an example of a middleman minority par excellence.” — E. Burke Rochford, Jr., author of Hare Krishna in America. $19.95.

Socio(onto)logy
Ben Agger
“Agger opens up the contemporary sociological project in bold and illuminating ways. The thesis that moves Socio(onto)logy—the joining of Marcuse, critical theory, and Derrida—is forceful and unique, especially in its treatment of feminist theory and recent Marxist thought and in its deconstructive reading of introductory sociology texts. This work, like Mills’s The Sociological Imagination, will be read and studied with care by generations of scholars and students.” — Norman K. Denzin, author of On Understanding Emotion and The Alcoholic Self. tba

Marxism and the Interpretation of Culture
Edited by Cary Nelson and Lawrence Grossberg
“A major event in the discourse of cultural criticism of our time. In both the scope of the issues addressed and in the depth with which each issue is examined, this collection of essays demonstrates that dialectical materialism remains the intellectual strategy with which any socially engaged critical practice, Right, Left, or Center, must come to terms. This book is indispensable for any intellectual who wishes to comprehend the current condition, not only of Marxian theory, but of social and cultural criticism in general.” — Hayden White, author of Metahistory and Tropics of Discourse. Cloth, $39.95; paper, $18.95.

The sexualization of American society...

INTIMATE MATTERS
A History of Sexuality in America
JOHN D'EMILIO and
ESTELLE B. FREEDMAN

"Comprehensive, meticulous and intelligent."
—Washington Post

"No one could have done better than D'Emilio and Freedman...Intimate Matters summarizes the state of our knowledge about sexual behavior in the United States in clear prose and with discriminating insight. This fine book will be definitive for some time to come."—The Nation

"An excellent survey of sexuality in America from colonial days to the 1980s. The commercialization of sex, its use as a means of social control, and the search for its place in our lives are presented here clearly and readably. Highly recommended."—Library Journal

This first full-length study of the history of sexuality in the U.S. takes us from the English colonists and Native Americans to today's bitter clashes over abortion, homosexuality, and commercial exploitation. Shedding new light on the complex interplay of race, gender, and class inequality, the authors discuss such issues as white slavery and lynching, how sex has served as a symbol for a wide range of social problems, and how conflicts over sexuality have shaped the political and cultural contours of an era.

D'Emilio and Freedman draw on court records, diaries, letters, and popular art and culture to provide both a scholarly interpretation of the history of sexuality and a compelling narrative of the everyday lives of Americans.

"Far more than a compendium of sexual folkways or another revisionist look at the supposedly puritanical past...[the authors] marshall their material to chart a gradual but decisive shift in the way Americans have understood sex and its meaning in their lives...John D'Emilio and Estelle B. Freedman deserve our gratitude for putting sex in its proper place—which is in the long, uneven movement toward a more diverse and democratic society."

MIDDLE AMERICAN INDIVIDUALISM

The Future of Liberal Democracy
Herbert J. Gans

An inquiry into the deeply-rooted individualistic values of American working and lower middle class people—and into their increasing avoidance of, and alienation from, Big Business and Big Government.

"Indispensable for anyone who wants to understand why most Americans grumble about the status quo yet shrug off radical changes. But make no mistake: in the form of modest proposals, Herbert Gans has given us a sensible approach..."—Todd Gitlin, author of The Sixties
1988 224 Pages ISBN: 0-02-911251-6 $19.95

FALLING FROM GRACE

The Experience of Downward Mobility in the American Middle Class
Katherine S. Newman

A penetrating analysis of the American Dream in reverse. With one in five American workers forced down the mobility ladder, earning less, and suffering a severe loss of status and self-respect, Newman explores the personal and social realities beneath America's current economic vulnerability at home and abroad.

"Katherine Newman's splendid book shows us our culture when its promises fail. She reminds us that..."—Robert M. Bellah, Senior Fellow, American Enterprise Institute

THE MORAL DIMENSION

Toward A New Economics
Amitai Etzioni

Blending elements of psychology, philosophy, and sociology with economics, Etzioni presents a bold new vision of economics—which proposes that broader moral, social and political concerns modify economic behavior and shape individual decision-making. In establishing the necessity of moral and social considerations in economic behavior, he provides a provocative new framework for a more comprehensive, ethical, and realistic approach to the social sciences today.

"An important contribution toward the integration of economic theory and social theory. This book has led me to rethink the book I am now writing..."—Marcus Cunliffe, Cornell University
"A constructive challenge to conventional ways of looking at ourselves and our society..."—Herbert Stein, Senior Fellow, American Enterprise Institute

James M. Henslin

Now in its Fifth Edition, this widely used text has been thoroughly revised and updated with 14 new articles that examine the most current research on topics such as ethnic differences in expressing pain, gender differences in the work world, the world of computers, and the homeless on skid row.

THE FEMALE FEAR
Margaret T. Gordon
and Stephanie Riger

From a very early age, women learn the fear of rape. In this original and provocative book, Gordon and Riger explore the social and psychological costs of this pervasive fear in women's lives. Using extensive interviews and the most current data, they demonstrate how this fear affects women's lives in the way they think, work, dress, socialize, and relate to men. Offering a sane perspective on a devastating yet little recognized social issue, the book presents concrete ways—educating the public, developing prevention programs, promoting reform in the law and legal system, and forcing accountability in media coverage—on which both women and men can begin to alleviate the debilitating effects of rape's terror.

December 1988 256 Pages ISBN: 0-02-922490-3 $19.95

THE SEARCH FOR STRUCTURE
A Report on American Youth Today
Francis A. J. Ianni

More than a decade of observation and interviews with thousands of adolescents provides the basis for this incisive report on the influences shaping American teenagers. By listening to young people and letting them speak out in their own words, Ianni helps us understand why some teens weather the storms of adolescence and pass into adulthood successfully—and why many become discouraged or confused, drifting too often toward delinquency, unemployment, and unwed pregnancy. Analyzing interactions among teens and the adults and institutions which shape their world, he pinpoints the community programs that can provide the support and structure teenagers need—and offers invaluable direction to parents and professionals who must help the next generation reach adulthood with a sense of hope and purpose.

Leadership in Policy Making and Crisis Management
Irving L. Janis

Janis—author of the acclaimed Decision Making and Groupthink, and one of the world's leading social scientists—here analyzes the most frequent reasons for poor, often catastrophic decisions, and shows how to avoid critical errors and ensure high quality problem solving. Janis provides four simple, essential steps to lower the risks of failure, especially in those life-and-death situations where the wrong choice can be disastrous.

Cumulative Index of Sociology Journals

The Cumulative Index of Sociology Journals, published in early 1987, covers the 1971-1985 period. Compiled by Judith Lantz of Carbondale, it contains both an author and keyword or subject index. Books reviewed in any of the journals that are part of the Index are included in both the author and subject listings. The following ASA-sponsored publications are included in the 780-page Cumulative Index: American Sociological Review, The American Sociologist, Contemporary Sociology, Journal of Health and Social Behavior, Social Psychology Quarterly, Sociological Methodology, Sociological Theory, and Sociology of Education.

In addition, both the American Journal of Sociology and Social Forces have been incorporated into the index. Their inclusion represents the Association's first, and very preliminary, attempt to put together a single index of all major sociology journals. Future editions will include a larger number of journals.

The Cumulative Index is available to ASA members for $37.50, to non-members for $48.50 and to institutions for $65.00. Send prepaid orders to: ASA Executive Office, 1722 N Street, N.W., Washington, D.C. 20036. Act now to get this valuable new resource!

When your research goes beyond the basics

Turn to BMDP Statistical Software for in-depth data analysis

Professional researchers turn to BMDP for in-depth data analysis. They appreciate the completeness and comprehensiveness of BMDP’s statistical programs.

BMDP provides all the standard routines for summarizing data, comparing groups, and forecasting trends.

But BMDP goes beyond these basics, with advanced techniques like nonlinear and logistic regression, Box Jenkins time series, multivariate ANOVA with repeated measures, survival analysis, and much more.

BMDP is available for VAX and MicroVAX under VMS, UNIX, and Ultrix. Also for PDP-11, IBM, HP, Data General, Sun and IBM PC compatibles.

Call today and we’ll send you information which shows just how complete and comprehensive your analysis can be — with sophisticated statistics from BMDP.
