Fieldnotes Case Resolved; Scholars’ Rights Supported
by Ruth E. Thaler

Scholars may claim legal protection similar to that enjoyed by reporters when promoting confidentiality to research sources, according to interpretation of the "successful" ending of a case involving a sociology graduate student whose fieldnotes were subpoenaed during an arson investigation.

In a case involving the sociology graduate student Mario Braszka, the U.S. Attorney's Office in New York has claimed the privilege of communicating with his former adviser, based on research confidentiality principles. Braszka, who was charged with arson, is currently serving a sentence for the crime.

The case involves a New York-based university that refused to turn over the notes to the prosecution, triggering a legal battle between the university and the Department of Justice. The university argued that turning over the notes would violate the confidentiality agreement between the student and his advisor.

The U.S. Attorney's Office has acknowledged that the privilege applies to the communications between the student and his advisor, but has refused to disclose the notes due to their potential relevance to the investigation.

"The case is an important precedent for protecting the confidentiality of research materials," said Ruth E. Thaler, an attorney specializing in intellectual property law. "It demonstrates that scholars have the right to maintain the confidentiality of their research, even when it involves potentially criminal activities."

Membership Committee Initiates System of Area Representatives

One of the outreach efforts of the ASA Committee on Membership is to network with area representatives. These representatives will help inform members in their geographic areas about the programs and activities of the Association and the benefits of membership. They will inform the ASA about the activities of its members and the professional concerns they have the Association to address.

The representatives are chosen by the Committee on Membership for their professional involvement in the Association and their willingness to volunteer their time and resources to develop ASA programs and activities.

The committee is encouraging ASA members to consider serving as area representatives to help promote the organization and its mission.

Lively Plenary Sessions Set for Annual Meeting

Four Plenary Sessions have been scheduled during the 1985 ASA Annual Meeting. The two regular Plenaries, both addressed to the overall theme of "Working and Not Working," are scheduled for the first day of the meeting, at 1:30 p.m. and the other at 3:30 p.m. The thinking behind this unusual arrangement is that the two sessions might serve as a kind of vanguard to the entire meeting for the discussion to follow. The speakers will be Anthony Golden, Michael Harrington, Arthur Stinchcombe, Shirley Williams, and Daniel Yankelovich; Maia Komarovsky and Elliot Liebow will provide.

The residential Plenary will begin at 3:30 p.m. on Tuesday, August 27. Kai Erikson will give the Presidential Address, tentatively titled "On Work and Alienation," following an introduction by Stanton Wheeler. A Special Plenary on "The Threat of War" will be held at 3:30 p.m. on Wednesday, August 28. The featured speaker is E.P. Thompson. Informal discussion groups will follow the plenary and cash bars will open for discussion participants.

A Tribute to Paul Williams

Robert B. Hill
Bureau of Social Science Research, Inc.

The ASA Minority Fellowship Program (MFP) was only two years old when Paul Williams was appointed its Director in 1975. For more than a decade, Paul has dedicated himself to fulfilling the MFP mission: increasing the representation of racial and ethnic minorities in the doctorate in sociology. When he steps down from his post this year, Paul will have the satisfaction of knowing that he played a major role in enriching the career development of hundreds of minority graduate students.

About 220 students have been supported by the program over the past 12 years. One-third (33) of them have received PhDs—-one of the highest rates of completion of any of the five MFP programs sponsored by the Center for Minority Group Mental Health Programs at the National Institute of Mental Health. Indeed, Paul will leave a legacy of outstanding accomplishments for the entire discipline through his roles as administrator, counselor, colleague, and friend.

Paul, who received his PhD from the University of Chicago, boasts an impressive array of skills and experiences to his credit. Prior to coming to the ASA Executive Office, he served on the faculties of the University of Rochester, Western Illinois University, Vanderbilt University, and Northwestern University. He was the staff member of the Population Council and served on the Ad Hoc Advisory Group, Social and Behavioral Sciences Branch, Center for Behavioral Research, National Institute of Child Health and Human Development.

Because of declining national commitment to programs aiding minority groups, Paul's fundraising abilities were called upon repeatedly. He was able to partly offset the cost of funds from the National Institute of Education by the (a) securing
Everything You Need to Know about the 1985 Annual Meeting!

by Janet L. Austin

TRANSPORTATION
The American Sociological Association is pleased to announce that Karson Travel has been appointed travel coordinator for the 1985 ASA Annual Meeting to be held in Washington, D.C., during the period of August 26-30, 1985. This travel company has made special arrangements to offer discounted airfares on major airlines for our attendees and exhibitors.

- Save up to 43% on airfares
- Flexible travel dates
- No advance booking or ticketing restrictions
- Fares not available to the general public.

Although this discount offer is available for travel on major airlines, Karson Travel's computerized reservation system can also arrange air transportation to the 1985 ASA Annual Meeting from any city on any carrier at the lowest applicable airfares.

Special 1985 ASA Annual Meeting airfares are available through Karson Travel. Ask for the special fare from your home city! Just call either of the Karson Travel airfare reservation numbers between 9:00 a.m. and 5:00 p.m. Monday through Friday: nationwide, (800) 685-2182; New York, (516) 763-5380.

Call as soon as possible to secure the best arrangements into the busy Washington, D.C. area or within Karson Travel, 5140 Long Beach Road, Oceanside, NY 11572.

ACTIVITIES OF OTHER GROUPS
The wide-ranging interests of the ASA membership generate meetings of special interest groups during the Annual Meeting. Space is assigned as available to these groups to hold their meetings at regular or special times when no Plenary sessions or other ASA activities are scheduled.

Topics to be discussed this year include: Courses in Programs in Clinical Sociology, "Dissertations and Postdocs" (Population Section Student Members), "Methodology-In-Progress" (Medical Sociology Section Student Members), "Microcomputers Users Group" (Nicholas Mullins), "Technical Economy" (Robert Liedman), "Teaching Medical Sociology" (Kathleen Chima). Other organizations planning to meet during the ASA Annual Meeting include: Alpha Kappa Delta, American Journal of Sociology Editorial Board, Christian Sociological Society, Committee on Sociology and Christianity, Clinical Sociology Association, Honors Program, SSA Research Committee on Methodology of Sociology, SSA Working Group on Sociobiology and Social Systems, many National Council of State Sociological Associations, North American Chinese Sociological Association, Quaker Sociologists, Research Committee on the Sociology of Disasters, Society for the Study of Symbolic Interaction, Sociological Research Association, Sociologists for Women in Society, Sociology Radical Caucus, Editorial Board of Work and Occupations: An International Sociological Journal.

EMPLOYMENT SERVICE
In addition to the monthly Employment Bulletin, the Association assists prospective employers and employees by sponsoring an Employment Service during each year's Annual Meeting. The 1985 Employment Service will again be under the very capable direction of Mr. and Mrs. Bill Clent.

The Employment Service will be open at the Washington Hilton Hotel in Washington, D.C. from 10:00 a.m. to 5:00 p.m. on Monday through Thursday, August 26-29.

SITE VISITS
The 1985 ASA Annual Meeting will focus on the theme "Working Women Not Working:" Part of the "Washington Flavor" of the meeting will be site visits to places where sociology is worked.

The District of Columbia has an active sociological society, celebrating its 50th anniversary this year. Jack and Madita Riley are the co-presidents. There are other groups of sociologists that meet regularly, including the local chapter of Sociologists for Women in Society (SWWS); a sociological theory group; sociologists at NIH; a special indicators task force; medical sociologists, and Research Resources for Children, Youth and Families.

These groups strive to be a blend of sociologists working on campus, for government and in the practice sector. ASA President Ken Erikson asked the District of Columbia Sociological Society to arrange for site visits to places where sociologists work in various capacities. The sites identified by the Rileys include the federal government and workplaces that are meeting places for those who work with which ASA members may have contact. At each site, several sociologists and other professional staff will meet with the tour group to describe the type of work that goes on at the site, demonstrate or summarize some recent projects and give a tour of the physical plant. There will be time for questions and individual consultations.

Pre-register for the site visits using the card in the Annual Meeting Preliminary Program packet. Each tour will take either a morning or an afternoon; but transportation is included. The current list of sites includes:

National Institute of Mental Health
National Institutes of Health
General Accounting Office
Wilson Center of the Smithsonian
Bureau of the Census
National Center for Educational Statistics
National Academy of Sciences
National Research Council
Department of Defense
Social Security Administration
Library of Congress

Add these tours to your Annual Meeting agenda and who knows? Potomac Fever may bite and you'll end up visiting many of the many interesting locations where sociologists are found in Washington, D.C. or perhaps more.

CHILD CARE
Child care will be available during the daytime program sessions at the Annual Meeting in Washington, D.C. for children three months and older. A determined effort is being made to provide a quality day care program similar to last year's service in San Antonio. Due to ASA Council's commitment to provide this service for the membership, fees will again remain the same as in previous years. By submitting a $5.00 non-refundable pre-registration fee for each child, parents will be entitled to unlimited daytime use of this service during the five-day convention. If children are not pre-registered the following fee schedule will apply: $7.50 per child for half-day usage, $15.00 per child for full-day care. Of course, parents using this service must also be paid registrants for the Annual Meeting.

PAPERS/ABSTRACTS DUE
Authors are reminded that papers and abstracts accepted for presentation at the Annual Meeting in Washington were due in the Executive Office on May 1. If you have not sent these materials, please do so immediately. Additional abstracts may be accepted upon request to the ASA Executive Office: 1722 N Street NW, Washington, D.C. 20036. (202) 833-3410.

1985 PRELIMINARY PROGRAM
The 1985 Preliminary Program packet will be mailed to all members in late May. This packet contains a schedule of events, including information on each session; information on making your hotel and travel reservations; registration information for the convention and ASA services as well as for Seminars, Courses, Workshops, and Exhibits; and luncheons. Check special events and social events. A thorough review of the Preliminary Program will not be a substitute for an Annual Meeting, not to be missed. Watch for your packet and register the registration forms promptly to ensure that all your preferences are available.

SEMINARS, COURSES AND WORKSHOPS
A complex series of workshops, seminars and courses have been lined up for the 1985 ASA Annual Meeting in Washington, D.C. Between August 24 and 30, there will be four mini-courses, 11 didactic seminars, 15 professional workshops, and seven teaching workshops. No one will have to travel from Washington at the right time for the opening plenaries and the Danday Party! Invitations will be mailed to all graduate departments of sociology before Memorial Day. Remember your department chair to reserve a
More on the Annual Meeting!

to sign up for when you receive the Preliminary Program packet lat- ter this month. Mini-Courses and Didactic Seminars require advanced registration and fee submis- sion.

Mini-Courses
Referee Course in Quantitative Methods: Clinical Trials, Mayo, University of Michigan
Referee Course in Sociology: Trust, Alan Sica, University of Kansas
Introduction to Type A traitors, Dusr Wheaton, McGill University
Software and Microcomputers, C. Clinic, Richard Richardson, Northwestern University

Didactic Seminars
Simulation and Gaming: Learning to Race • "What’s News," A Game Simulation of a Fire, William A. Carman, Boston College
Life Course Analysis, Glenn H. Elder, Jr., University of North Carolina
Analysis of Longitudinal (Panel) Data, Ronald C. Kessler. University of Michigan, and David F. Greenberg, New York Uni-

Multivariate Contingency Analysis: Introduction, Robert W. Hodge, University of Southern Califor-

nial, and John W. B. Rai. University of Chicago
Multivariate Contingency Analysis: Advanced, Michael E. Sobel, University of Arizona, and Clif-

ford C. Clogg, Pennsylvania State University
Constructing Cross-National Data Sets, Dane Arbes, University of California, Santa Cruz
The Census as a Resource, Paul M. Sigel, U.S. Bureau of the Census

Social Network Analysis, Frank P. Romo, State University of New York, Stony Brook
Dionne Edsall, Shabnam Reihani, Brandeis University
Fundamentals of Content Analysis, Robert Frank, Harvard University, and Peter Philip Mohler, Center for Surveys, Methods and Analysis, Mann-

heim, West Germany
Using Court Records, John Hogan, University of Toronto

Professional Workshops
Jeff Richard Irish, Truman State University
Ethical and Legal Problems of Research, Lyle Hallowell, State University of New York, Stony Brook

Federal Funding of Sociological Research: Successful Proposal Writing and the Review Process, Thomas Gasterback, National Science Foundation

Federal Funding of Sociological Research: Exploring Long Term Research Opportunities, Tina Vanderweide and Nathan Rosen-

berg, National Institute on Alcoholism and Alcohol Abuse

Feminist Theory/ Sociological Theory, Barbara Tuchman, University of Minnesota

Certification in Sociology, Richard H. Hall, State University of New York, Albany

Effective Field Job Hunting Techniques, David Woodell, Federal Research Service, Inc.

Unions in America, Nora Glazer, Brandeis University

Teaching Sociology from a Feminist Perspective, Stuart H.Hill, St. Lawrence University

International and Comparative Sociol-

ogy: Japan, Patricia Stebbins, University of Hawaii, Mano

International and Comparative Sociol-

ogy: South Africa, David Wible, Michi-

gan State University

International and Comparative Sociol-

ogy: Canada, Theda Skocpol, Cornell, York University

Dealing with Publishers, Woody Powell, Yale University

Teaching Workshops
Academic Leadership: Orientation for New Chairpersons, Lee Becker, Indiana University of Pennsyl-

vania; Hans O. Mausdi, University of Wisconsin, Mil-

waukee; Dennis McGinn, University of New Orleans

Teaching About Nuclear War and Society, Lynda Lytle Holmstrom and Charles Derfer, Boston College: Elise Bouding, Dart-

mouth College (co-sponsored by the Society for the Study of Social Problems)

Teaching Social Theory, Louise Levenson-Lapman and James Lemm, University of North Carolina, Charlotte

Teaching Social Problems, Paul J. Beiler, Illinois State University, and Louis Anderson, Kank-

ochee Community College

Teaching Sociology of Education, Joanne Ballabain, Wright State University, and Caroline Pern-

el, New York University

Teaching Work and Occupations, David Booth, University of Windsor, and Jane Houd, Uni-

versity of Wisconsin, Milwaukee

Teaching Urban and Community Sociol-

ogy, Ivan Light, University of California, Los Angeles, and Philip Olson, University of Missouri, Kansas City

Teaching Anthropology, Joseph DeMartins, Washington State University, and Alex Horro, Kent State University

Getting Students Involved in the Annual Meeting

by Carla B. Honey

Every year, about 30 students participate in the ASA Honors Program. They see more of the Annual Meeting, and learn about sociological research and career management than most ASA members. They get a chance to interact with students from schools around the coun-

try. Burton Wright, University of Central Florida, coordinates the program and arranges for special sessions in which students meet with members of the ASA Council, ASA officers, plenary spea-

kers, and other guests. Students attend paper sessions, plenary sessions, the business meeting, roundtable and didactic seminars and review their observations in final report.

The Honors Program is in need of a year-round effort. The staff from the program keep in touch with one another via a newsletter. They plan special sessions down at the Annual Meeting and help one another with information about graduate school jobs, fellowship opportunities and hobbies. There is still time to apply for the 1986 ASA Honors Program. In addition to this program, there are other ways students can feel a part of ASA. Students special student activities include:

• a student reception (Monday, August 26)

• information on graduate schools in the exhibit area

• a stroll in the area for undergraduates to encourage them to attend the meeting, the graduate fee remains at $10—special socials (available at registration) listing all the student-related activities

• a special roundtable and a paper session set up just for student contributions (suitable applications to David Jessel, Louisiana State University)

ASL welcomes anyone interested in graduate school to attend the meeting. Students are encouraged to use those opportunities to get more information about the content of graduate school and the process of graduate study will receive a mail-

ing about this service and how to participate.

For more information about the

ASA Honors Program, contact Burton Wright, Department of Sociology, University of Central Florida, Orlando, FL 32816. For means in the program on the student involvement in the Annual Meeting, con-

tact Carla B. Honey at ASA (202) 833-3410. Pre-registration materials will be available in mid-May.

Honors Program Coordinator: Burton Wright, Department of Sociology, University of Central Florida, Orlando, FL 32816. For means in the program on the student involvement in the Annual Meeting, con-

tact Carla B. Honey at ASA (202) 833-3410. Pre-registration materials will be available in mid-May.

Media Relations Shaping Up Well

by Ruth E. Thaler

It's hard to believe, but the ASA Annual Meeting is rapidly approaching and so is the neces-

sity to begin promoting sociology through mass media.

As part of our ongoing commitment to inform the public about what sociology is and how ASA members' research can be used by the media to educate the public, a four-week media relations plan has begun that will climax with the Annual Meeting. Sociologists have a great deal to contribute to the general understanding of how and why society functions. To be considered as experts in this area, media coverage is essential. It is equally important that the profession take an active role in shaping how sociology, and sociologists, are presented to the media.

As part of such efforts, ASA Executive Office Staff have begun compiling a list of media representatives of national and local publications and radio stations in the Washington, DC area, who will receive press releases on the Meeting. Re-

leases will provide details on the Meeting in general, specific papers being presented, interest-

ing aspects of the meeting, and other activities of interest. Re-

leases summarizing various papers will be sent out regularly between late April and mid-

August to generate interest in the Meeting and in covering the re-

search of ASA members before, during and after the program. While press coverage of the 1984 Annual Meeting was gratifyingly positive and widespread, this year's efforts promise to be even more successful. Washington is a center of national outlets in all media, print and electronic, with a strong educational media community as well. There will be built-in interest in many of the sessions and easy access for major media representatives. The timely theme, 'Working and Not Work-

ing,' promises to be of interest to national, regional and local media as well as to a public increasingly concerned with the meaning and value of work.

During the Meeting, ASA will provide a press room for media to use for interviews. Regular daily press conferences are planned, featuring ASA officers, members and guest speakers. Media panels include writing releases during the Meeting, on award recipients, key addresses such as that by ASA President Kai Erikson and special guest speakers, symposiums on the three Plenary Sessions, and in-

formation on sessions and presen-

tations of general interest.

ASA will issue press badges to all media representatives covering the Annual Meeting. Remember that giving sociology a "good name" with the press is a responsibility of all ASA members. Be prepared to be buttonholed by reporters eager for the current in-

sights and social hazards.

Details on press room hours will be posted. ASA members may make arrangements onsite with press room staff to hold individual interviews in the press room.

ASA members who would like to be included in promotional ac-

tivities during the 1985 Annual Meeting may contact Assistant Executive Officer Carla Howery or Press Officer/Managing Editor Ruth Thaler at the Executive Office. Keep in mind that lively topics of general interest will get

the most response from the press. For an idea of the kind of topics that sociologists can expect the press to "cover," take a look at recent "Mass Media" items in

Students at 1984 Annual Meeting
ASA’s Budget in Balance

The Author’s Report on the financial condition of the American Sociological Association for the year 1984 (including comparative data for 1983) begins on this page. This report of the Association’s finances as of December 31, 1984, has several new elements, such as a particular focus on the "Balance Sheets," for example (Table I), present a general overview of assets and liabilities, including both the operating and restricted funds. The latter include the Research Memorial Fund, grants from NSF to support the Minority Fellowship Program and a number of smaller funds relating in size to the Community Services to $10,185 (fund for the Advancement of the Discipline).

Overall, 1984 was a stable year for the Association, with most income growing by some $66,000 over 1983 and liabilities by $57,000. Equity in the general operating fund increased by $14,282 in 1984, totaling $360,330. The figure represents the amount remaining after accounting for all debts. It provides vital interest income to help balance the budget and during years of high inflation when expenses exceed income (1981-1982), it was needed to cover the deficit. Stable or growing equity is vital to the future of the Association.

Table II compares Revenues and Expenses for 1983 and 1984. Income from Member Dues and Sections remained stable, while income from subscriptions dropped by a total of $18,000, from $369,586 in 1983 to $351,536 in 1984. The year 1984 saw only a minor increase in Publications costs, of $6,000. At the same time, expenditures for the Annual Meeting increased by $24,000, reflecting in part the higher cost of travel to San Antonio as compared to Detroit (1983).

Table III presents a more detailed account of Expenditures. Although Workshop expenses increased in 1984, these costs were more than offset by the income generated. Executive Officer salaries and benefits increased by less than 10 percent, while building repairs, maintenance, telephone, real estate taxes, and legal fees and accounting fees more than doubled in cases. Some increased costs, such as telephone, postage and paper costs, are in large measure beyond ASA’s ability to control. Other expenditures increased as a function of new and expanded activities, such as mid-year meetings of ad hoc and standing committees. Some gives specific tasks by Council.

While 1984 was a stable year overall, prospects for 1985 and 1986 present new challenges. Postage costs increased by 10 percent as of February 1985. Paper and production costs related to ASA journals, FOOTNOTES, and other publications have increased by 5 percent to 10 percent for 1985. The Executive Office and Budget Committee believe that these projects are needed and will be fully supported. Overall, the 1985 proposed budget remains essentially unchanged.

We have examined the balance sheets of American Sociological Association (a District of Columbia not-for-profit corporation) at December 31, 1984 and 1983, and the related statements of revenue and expenditures, Association equity and changes in financial position and cash flow for the years then ended. Our examinations were made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. In our opinion, the financial statements referred to above present fairly the financial position of American Sociological Association at December 31, 1984 and 1983, and the results of its operations and changes in its financial position and cash flow for the years then ended, in conformity with generally accepted accounting principles applied on a consistent basis.

Sociology Series Wins Public Affairs Honors

"Sound Series in Sociology," a 13-part radio series directed by sociologist Gerald Maxwell as chief academic advisor and produced at WHOL Radio of the University of Wisconsin-Madison, received a 1983 Ohio State Award for excellence in educational, informational and public affairs broadcasting. Maxwell received the award during a banquet at the National Press Club in Washington, DC, in April. The awards were presented by The Ohio State University president, Edward H. Jennings, who chairs the Department of Sociology at the University of Wisconsin-Madison.

The two shows recognized for the award were "Up in Smoke: Social Deviance and the Marijuana Controversy" and "Outside a Small Circle of Friends: Natural Support for the Eldery.

The group of academic advisors assisting Maxwell include Phillip Berg (University of Wisconsin-La Crosse), Thomas Greiner (Indiana University), and Charles Mueller (University of Iowa). The series is copyrighted by the Committee on Institutional Cooperation, and was funded by the Annenberg Corporation for Public Broadcasting Project.

The series was among 20 radio and 47 television programs to receive the prestigious awards. More than 400 programs from nearly every state in the country were submitted for the competition. In 1983, the awards have encouraged and honored over 2,300 quality programs in education and public affairs.

NOTES TO FINANCIAL STATEMENTS

A summary of the Association's significant accounting policies consistently applied at the preparation of the accompanying financial statements follows.

1. Property, Plant and Equipment

Depreciation is provided on the straight-line basis over the estimated useful lives of fixed assets unless they are specifically identified by another basis.

2. Deferred Income

Deferred income represents amounts received in advance for the following:

(a) Members and section dues which are applicable to programs planned for subsequent periods.

(b) Subscription periods which are applicable to subsequent periods.

3. Income Taxes

The Association is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code, except forimmel' business income (leasing tidal rentals, advertising, etc.), that resulted in federal and District of Columbia income taxes of approximately $1,140 and $2,020 for the years ended December 31, 1984 and 1985, respectively.

4. Inventory

The Association values its inventory at the lower of cost or market, using specific identification.

NOTE B—RESTRICTED FUNDS

These funds are held by American Sociological Association (ASA) as custodians to be used for specific purposes and are, therefore, restricted. Certain grants and funds administered by ASA custodians provide for the actual expenses by budget categories as set forth in the grant awards or fund documents. The expenses attributable to these funds are subject to audit. To date, the Association has not experienced any unfavorable expenses relating to grants or funds in issue. The expenses include: expenditure for administrative services of unassigned operators for administrative expenses which were $79,758 and $28,737 for the years ended December 31, 1984 and 1985, respectively.

NOTE C—RETIRED PLAN

The Association has a voluntary retirement plan for its eligible employees. Under the plan, employees may contribute pretax contributions provided by Teachers Insurance and Annuity Association. These contributions are matched by the Association, limited to 5% of the first $7,770 of the employees' wage base but no greater than 5% of the remaining salary. Contributions made by the Association on behalf of the employees amounted to $8,795 and $5,273 for the years ended December 31, 1984 and 1985, respectively.

NOTE D—PROPERTY, PLANT AND EQUIPMENT

These notes are the property of plant, plant and equipment:

1984 1983
Building and improvements $215,165 $215,165
Office furniture and equipment 115,365 115,365
Less accumulated depreciation 115,365 115,365
Land (1722 N Street NW, Washington, DC) 39,000 39,000
Building and improvements include the original cost of the building of $52,199 and improvements of $161,790. No amount is given to the market value of the land and building in these financial statements.

ASA Contributors

ASA gratefully acknowledges voluntary contributors who continue their generous giving to the Association's well-being. (Additional contributors are listed in the February 1985 issue of FOOTNOTES.)

NEH Funding Guide Available

Overview of Endowment Programs 1988 in the most searchable format for help in the National Endowment for the Humanities. The Overview is a reference guide for both the first-time and the frequent NEH inquirer. The guide contains a quick look at the broad range of the 25 programs, instructions, eligibility requirements, and agency telephone directory. A list of other NEH publications. It is available free of charge from: National Endowment for the Humanities, Washington, D.C. 20506.

Endowment Fund Gets Boost from Section

With a donation from the ASA Section on Undergraduate Teaching, the ASA Endowment Fund got a boost in the 1985 dues increase. Other Section's efforts to increase contributions to the Fund on their dues renewal notice. The Fund is an effort to build up a source of support for special projects to increase the effective teaching of sociology. Like all endowment funds, it needs to grow to sufficient size before the funds can be tapped for such efforts.

In the future, the Committee on Teaching, which oversees the Fund, will apply for seed money for projects such as special conferences on teaching, new publications, demonstration projects for innovative techniques, developing videotapes and films for teaching, and other projects useful to students, and other ideas that can not be funded through college and university funds or foundation or government sources.

At the moment, the Teaching Endowment Fund is in the hands of ASA members. Please follow the good example of the Section on Undergraduate Education. Send a tax deducible contribution to the ASA, Teaching Endowment Fund, in care of the ASA Executive Office. Thank you. —CBH

TEACHING

Using Computers to Teach Sociology: A Departmental Survey

by George Doudt, St. Joseph's University, Ron Rappaport, Social Research Corporation; and Arthur Shavit, Drexel University

This article reports on a survey of 22 American sociology departments that are using computers in their classes. The survey examined the incidence and extent of computer use, the various devices and software that are used, and the future plans of departments.

Trends in the Use of Computers in Sociology

Although the use of computers in sociology has increased, there are still significant differences in how departments are incorporating computers into their teaching. Some departments have made significant investments in computer facilities, while others have not.

Future Plans of Sociology Departments

Most departments plan to continue using computers in the future, but there is variation in the extent and type of computer use. Some departments plan to expand their computer facilities, while others plan to maintain their current level of use.

Examples

In one department, computers are used extensively to teach statistics courses. In another department, computers are used primarily for research assistance. In a third department, computers are used to supplement traditional teaching methods.

Practice Award Open

The Selection Committee for the ASA Distinguished Career Award for the Practice of Sociology invites nominations for this Award, which will be presented at the 1988 Annual Meeting in New Orleans, Louisiana.

The nominee should have at least a full decade of active work involving research, administration or operational responsibilities. The work should be described in a letter of nomination or other evidence. The nominee should be recognized as a leader in the field of sociology.

Please note the following requirements:

1. Nominations must be received by May 15, 1988.
2. All nominations must be accompanied by a letter of support from at least two other ASA members.
3. Nominations should be sent to the ASA Executive Office, 1530 New York Avenue, N.W., Washington, D.C. 20005.

I nominate the following person as a candidate for the 1988 ASA Distinguished Career Award for the Practice of Sociology:

Name: [ ]
Address: [ ]

I have included a statement documenting the nomination in favor of the Award criteria. It can be faxed at the address below to provide supporting materials:

Williams, from page 1

in increased funding from NIMBY's two grants (basic research training and applied sociology training) and (b) by more effective targeting of the Social Science Division Grants. Fourth, funds can be used to compensate for reduced resources caused by recent budget cuts in applied training by convincing additional graduate departments to support MP fellows. Fifth, funds can be used to help mentor to many Fellows at various stages of their graduate study. On occasion, he tried to enhance their integration into these departments by communicating some of their concerns to chairs and faculty.

To overcome the under-representation of MP fellows at ASA meetings, Paul recently initiated a challenge grant to departments to encourage them to help defer the cost of Fellows' travel expenses. The response was so overwhelming that the 1984 Annual Meeting in San Antonio had one of the largest contingents of Fellows at any ASA annual meeting.

In addition to his responsibilities as MP Director, Paul performed vital functions in his capacity as ASA Associate Executive Officer. He served as Associate Editor of FOOTNOTES and prepared special articles for that publication. He also served as Executive Office Liaison to various ASA committees and has represented the Association at many important conferences, workshops, and forums.

Paul's decade of outstanding service has been deeply appreciated by all who have been affected by his composition and quiet diplomacy. The ASA Council has pledged to redouble its efforts on behalf of the MP Program and established a task force charged with locating additional sources of funding. Members of the Association have increased their level of financial contributions to the program.

At a reception held in Paul's honor at the 1984 Annual Meeting, James Ralph, head of NIMBY's Center for Minority Group Mental Health (CMMH), said that his agency would always be deeply indebted to Paul for the exemplary leadership that he has provided on behalf of the MP program. Those sentiments are shared by the ASA Council, MP Fellows, MP Committee members, MP department faculty, and a host of colleagues and friends throughout the discipline.

Paul, you will be sorely missed. Everyone wishes you much success and happiness in your future endeavors.
more democratically, for one thing. We are now more able to ‘take the cards on the table’ at meetings...There are points in all kinds of foreign countries, of course, and you got tired of being asked year after year whether or not. Riemer left for Japan in 1959. It did not occur to me that I would be in the United States in the 1950s, I doubted that I would be in the United States in the 1960s, and I certainly did not think that I would be in Asia in the 1970s.

His research interests have included the relationship between the sociologist and the respondent. He has written extensively on the role of the sociologist in research and the role of the sociologist in policy making. His work has been widely cited and has influenced the development of sociological research and policy making.

Riemer began his career in sociology at the University of Chicago, where he received his Ph.D. in 1947. He then served as an assistant professor at the University of Michigan from 1947 to 1951, and as an associate professor at the University of California, Berkeley, from 1951 to 1955. In 1955, he joined the faculty of the University of Wisconsin-Madison, where he remained until 1975. He then moved to the University of Pennsylvania, where he served as a professor until his retirement in 1987.

Riemer's work has been widely recognized and he has received numerous awards and honours. He was a fellow of the American Academy of Arts and Sciences and a member of the National Academy of Sciences. He was also a member of the American Sociological Association, the American Political Science Association, and the American Statistical Association.

In 1990, Riemer was awarded the American Sociological Association's highest honour, the Charles S.建设研究: 社会科学研究基金

Together, they have written extensively on the role of the sociologist in research and policy making. Their work has been widely cited and has influenced the development of sociological research and policy making.

Social Science Research and Congressional Policy

by Richard M. Laveissiere, Emory University

For the past year, I have been a "participant observer" in congressional staff offices in Washington as a Health Policy fellow sponsored by the Robert Wood Johnson Foundation and supported by funds from the House of Representatives. This position is funded by the training of a program in a program funded by the Institute of Medicine, National Academy of Sciences. Among my objectives was to learn how social science research contributed to policy development and to gather information regarding the effectiveness of public policy. My observations and interviews with staff in two diverse locations, the Oversight and Investigations Subcommittee of the House Energy and Commerce Committee chaired by Representative John Dingell and Senator Edward Kennedy's Labor and Human Resources Committee, were obtained through the sponsorship of the Institute for Social Research at Indiana University.

At the beginning of the year, I was a member of a group of researchers who met monthly to discuss current issues in social science and policy. My participation in these meetings was an important aspect of my research, as it allowed me to interact with peers and learn from their insights and experiences. My observations and interviews with staff in the two locations were conducted through a combination of reading materials, discussions with staff members, and observation of their work. This research has provided me with a unique perspective on the role of social science in policy development and has helped me to understand the complex relationship between empirical research and policy formulation.

In my role as a social science researcher, I have observed how social science research is often used to inform policy decisions. I have seen how the results of research are translated into policy recommendations, and how these recommendations are then translated into actual policy. This process is not always straightforward, and there are often conflicts between the results of research and the interests of stakeholders.

One of the most striking examples of this conflict was the debate over the smoking ban in the House of Representatives. The ban was supported by public health advocates and researchers, who argued that it would improve the health of smokers and prevent non-smokers from being exposed to secondhand smoke. However, the ban was opposed by tobacco companies and their supporters, who argued that it would harm their business and violate their constitutional rights.

Despite these conflicts, I have seen how social science research can play a critical role in shaping policy outcomes. By providing evidence and insights, social science research can help to inform decisions and ensure that policies are based on sound evidence. This is particularly important in areas such as healthcare, education, and environmental protection, where the stakes are high and the potential for harm is great.

In conclusion, my research has shown how social science research is an integral part of the policy-making process. By understanding the role of social science research in policy development, we can work to ensure that it is used effectively and efficiently to inform and influence policy outcomes.

REFERENCES

Human-Computer Interaction

I am interested in studying social science research and how it is used by decision-makers in their work. I am particularly interested in the ways that social science research is used in public policy-making, and in the ways that it can be used to improve the effectiveness of public policy.

In my research, I have focused on the ways that social science research is used by decision-makers in government and non-governmental organizations. I have found that there are a number of factors that can influence the use of social science research in decision-making. These factors include the nature of the research, the context in which it is used, and the interests of the decision-makers.

In addition to my research, I am also interested in the ways that social science research is used in the field of public policy. I have been involved in a number of projects that have used social science research to inform policy decisions. These projects have included the development of new policies, the evaluation of existing policies, and the development of new programs.

In conclusion, I believe that social science research can play a critical role in informing and improving policy decisions. By understanding the ways that social science research is used in decision-making, we can work to ensure that it is used effectively and efficiently to inform and influence policy outcomes.
Sociological Theory Becomes ASA Journal

At its February meeting, ASA Council, acting upon a recommendation from the Committee on Publications, transformed Sociological Theory (ST) into a semi-annual journal to begin appearing in 1985. The first two volumes, ST 1983 and ST 1984, in book format and were published by Jossey-Bass. The spring 1985 issue of the new journal is scheduled to appear in August and should be available at the Annual Meeting: the fall 1985 issue will appear by the end of the year. In future years, the publishing schedule is expected to move forward by several months.

The Council action culminates six years of planning and experimentation with publication formats for ST. The plan for a theory journal was originally proposed by the Publications Committee in 1979 and an annual publication was approved by the Council.

Under an innovative structure, there were three co-editors: Peter Berger, an advocate of theory, and Charles C. White and Irving Zeitlin. The rationale was to accommodate the multiplicity of purposes in sociological theory. Work began on assembling the first volume in 1982. However, by spring 1983, Berger and Zeitlin were removed, leaving Collins as sole editor.

"It's the second time I've been the member of an editorial triumvirate," Collins said. "The first time was in 1974-75 when Al Goodey, Pierre Bourdieu and I started Theory and Society. That arrangement boiled down to one editor very quickly, too. One would have to conclude that there is something unstable about structures of that form. Julius Caesar's triumvirate didn't last very long, either.

After some delay, a two-year contract was signed with Jossey-Bass to publish ST as an annual volume. This appeared in 1983 and 1984, under Collins' editorship. After a review of these volumes by the Publications Committee, the move to full journal status was made. An advantage of this format over the hard-cover annual volume is that it is a less expensive publication, which will be listed as a serial and hence more readily available in libraries. The new format also should reduce lag between submission and publication and allow for full changes and debates between authors and readers.

The 1985 issues of ST will contain, among other articles, a previously untranslated essay by Max Weber on "Anarchie und Sekt in North America," an introduction. "An Alternative Path toward Rationalization," by Colin L. Hirsch and Jeffrey Alexander, and an article on the importance of this essay for Weber's theory of modern democracy. Other articles include a symposium on the present historical development of Marxist theory, a study of power and exchange, a theme of social theory, and an essay for functionalism. A popular feature of ST 1983 and ST 1984 has been a "Theory News and Commentary." This section contains reports on topics. The first four issues of ST, for example, include a critical review of the recent revival of Marxism in sociology, a section on the influence of Marx and Marxism, and an account of the journal's first ten years.

Starting in 1986, ST will be available as an option for ASA members as part of their dues package or may be subscribed at a reduced subscription rate for $14 per year. Subscriptions for the 1985 issues are now available at the journal's website. To place an order, visit the Journals Division, 666 Broadway, New York, NY 10012.

ASA members are urged to ask their college and university libraries to subscribe to ST. The library rate for 1985 is $20.

The second two years of ST 1983 and ST 1984, are available from Jossey-Bass Publishers, 1500 California Street, San Francisco, CA 94104.

Minorities and Women

Douglas C. Bachtel, University of Georgia, is consulting editor for the American Sociological Association's forthcoming Minority and Women.

Women Mass Media

C. Carman O'Connell, University of Georgia, is consulting editor for the American Sociological Association's forthcoming Mass Media.

Monograph on Employment Trends Available

The monograph describes and analyses employment trends through the year 2008, a major challenge for sociologists and related disciplines. Sociologists can contact the ASA Office of Program Services, 4915 Broadway, Washington, DC 20016, for information on the report.

Monograph on Minorities and Women

The ASA Minority and Women's Affairs Committee has released a report on the status of sociologists of color. It is available from the ASA Office of Program Services, 4915 Broadway, Washington, DC 20016.
Obituaries

Robert Cooley Angell

Robert Cooley Angell's life traversed and his career encompassed three disciplines of sociology as an academic discipline in the United States. A chronic

Robert Angell received his MA in 1922 from the University of Michigan. He did one term of legal studies at Harvard, but found this uncongenial and returned to Michigan to do graduate work under his uncle, Charles Horton Cooley, who had taught sociology under the Department of Economics since 1895. Angell received his MA in 1922 and his doctoral degree in 1924, with a dissertation on the student mind, which was later published under the title The Campus. In 1922, he was appointed instructor and in 1923 Assistant Professor, in the Department of Economics.

In 1930, he became the director of the University's own department of sociology. Angell became associate professor in 1930 and full professor in 1935. He was appointed chairman in 1936 and served until 1942. Angell was elected to membership in a number of a Washington research groups that became the Research Center for Group Dynamics, forming the basis for a new interdisciplinary program in sociology.

The Committee on Career and Employment of the Mid-

The Committee on Career and Employment of the Mid-
MEDICAL SOCIETY

The Annual Medical Society Section Council met at February in Princeton, N.J., and the Annual Business Meeting was held on April 12 in New York City. The Section sponsored the annual meeting of the American Society for Clinical Research (ASCR) in New York City on October 17.

The following programs were held in the Section:

1. A symposium on "The Role of the Surgeon in the Treatment of Cancer"
2. A roundtable discussion on "Current Problems in Neurology"
3. A workshop on "The Ethics of Medical Research"
4. A panel discussion on "The Future of Health Care"

The section also sponsored a series of lectures on "The History of Medicine" during the academic year.

FAMILY

The principal activities of the Family Medicine Section were devoted to the organization of the Annual Meeting, scheduled for April 12 in New York City. The meeting will focus on the role of family physicians in the care of patients with chronic diseases. The section also sponsored a workshop on "The Use of Technology in Family Medicine" during the meeting.

SOCIOLOGY OF PEACE AND WAR

The 1968 election campaign highlighted the role of sociology in the field of peace and war. The section sponsored a symposium on "The Role of Sociology in the Study of Peace and War" during the annual meeting. The symposium was attended by over 100 scholars and practitioners in the field.

The section also sponsored a workshop on "The Use of Technology in the Study of Peace and War" during the annual meeting.

ORGANIZATIONS AND PERSONALITIES

In 1968, the Section was awarded its first award for excellence in its field by the American Sociological Association. The award was presented to Dr. John Doe for his contributions to the field of sociology.

SOCIETY OF EDUCATION

The Society of Education held its annual meeting in New York City on April 12. The meeting focused on the role of education in promoting social change.

The section also sponsored a workshop on "The Role of Education in the Development of a Democratic Society" during the meeting.

THEORETICAL SOCIOLOGY

The principal activities of the Theory Section were devoted to the organization of the Annual Meeting, scheduled for April 12 in New York City. The meeting will focus on the role of theory in the development of a democratic society. The section also sponsored a workshop on "The Use of Technology in the Development of a Democratic Society" during the meeting.

SocioLOGY OF THE FAMILY

The principal activities of the Sociology of the Family Section were devoted to the organization of the Annual Meeting, scheduled for April 12 in New York City. The meeting will focus on the role of the family in the development of a democratic society. The section also sponsored a workshop on "The Use of Technology in the Development of a Democratic Society" during the meeting.

SocioLOGY OF THE MENTAL HEALTH

The principal activities of the Sociology of the Mental Health Section were devoted to the organization of the Annual Meeting, scheduled for April 12 in New York City. The meeting will focus on the role of mental health in the development of a democratic society. The section also sponsored a workshop on "The Use of Technology in the Development of a Democratic Society" during the meeting.
POLITICAL ECONOMY OF THE WORLD-SYSTEM

For the past fifteen years, I have been involved in a broad study of political economy and its implications for the global economy. In this article, I discuss some of my findings and conclusions.

SOCIETY OF AGING

The Society of Aging is an organization that meets on a monthly basis to discuss issues related to aging and its implications for society.

ASA Workshops on Computing

For the third summer, the ASA Workshops on Computing program is organizing workshops on computing topics. These workshops are oriented to the beginning user of computer technology and are designed for social scientists who use computers.

Teach In 1985

Teach In 1985 was a nationwide protest by educators against the Reagan administration's cuts in education funding.

CONFERENCES

Association for the Advancement of Policy, Research and Development in Aging (APRA), November 1983, Palm Beach, FL. The annual meeting was held in conjunction with the AARP's National Convention.

ASA Workshops on Computing

The ASA Workshops on Computing program is a popular event that brings together scholars and practitioners to discuss advances in computing.

ASA and Asian America

The 1984 Annual Meeting of the Association for Asian Studies was held in Honolulu, Hawaii, and featured several sessions on Asian American studies.

ASA and Northern Europe

The 1984 Annual Meeting of the American Sociological Association was held in northern Europe, with sessions focusing on issues related to sociology and its applications.

ASA Workshops on Computing

The ASA Workshops on Computing program is a popular event that brings together scholars and practitioners to discuss advances in computing.
