Hello Sexualities Members!

As I write this, we mark the momentous occasion when same-sex couples can start to marry officially in California. However, I write this not in California, but in Virginia, one of forty-four states that have enacted some sort of legislation against such unions (Virginia’s laws are particularly nasty in this respect). So this provides yet another moment for reflection, about how far we’ve come, and how very far we have yet to go. To play off the 2008 meeting theme, we have worlds of work to accomplish.

The ASA meetings in Boston will provide plenty of opportunity for reflecting, networking, and brainstorming about the state of the sociology of sexualities. To start, we have three great sessions planned. The session on same-sex marriage should shed much light on our very current events. Kristen Schilt and Laurel Westbrook have organized a provocative invited session on how transgender studies have impacted the sociology of sexualities and gender. Steven Epstein’s session on sexualities, bodies, and health pulls together such diverse topics as sex work and professional wrestling. In addition to these sessions, our roundtable session looks great, with twenty presentations on a wide variety of topics. And don’t forget our section’s business meeting will be held on Sunday, August 3rd, at 11:30am. This is a great way to get more involved in the section.

On a more social note, our reception committee has found us the perfect place to cavort and to congratulate our award winners. The section’s reception will be held Sunday, August 3rd, at 7:00 pm at Club Café, which is a very well reputed spot in Boston’s South End neighborhood (209 Columbus Ave. Boston, MA 02116, www.clubcafe.com). Please mark your conference calendars and spread the word!

I’d like to thank all my fellow section members who have put in many hours making sure we met our various ASA deadlines for sessions and awards. I seldom had to crack my whip. Finally, I’d like to congratulate our newest chair-elect, the much-more-illustrious-than-I Beth Schneider. With Nancy Fischer’s impending reign, and then Beth’s, the section will be in very good hands indeed.

See you in Boston!

Tom Linneman

In the last decade or so, the study of sexuality has emerged as a vibrant interdisciplinary field of social analysis. For many years, sexuality was approached as an individual, biological or psychological phenomena. Today, the idea of sexuality as a social fact or construction is the point of departure for much of the most exciting scholarship in the area.

Sections are an important mechanism for getting out information about our specialty area... Section status also affords a variety of institutional supports from the ASA, including funding for information dissemination and a guaranteed number of paper sessions at the annual conference.

In short, we believe it is in the best interests of the discipline of sociology to advance the sociological study of sexuality. One way to promote this goal is to support the... "Sociology of Sexualities" as an ASA section and to encourage you to join... when you renew your membership in the ASA.

Announcing the Publication of the Agenda for Social Justice, Solutions 2008

The Society for the Study of Social Problems is pleased to offer you the Agenda for Social Justice, Solutions 2008, which represents an effort by our professional association to nourish a more "public sociology" that will be easily accessible and useful to policy makers. It is also a way to give something back to the people and institutions that support our scholarly endeavors. We hope that you find it helpful in your challenging work of crafting successful solutions to contemporary social problems. In all, it contains 11 pieces by SSSP members, covering a variety of social problems in three sections: global issues, Americans at risk, and health & welfare. This is an effort on the part of scholars at the Society for the Study of Social Problems to disseminate the findings in social problems research as freely and as widely as possible. The web page for the project is located here: http://www.sssp1.org/index.cfm/m/323. On that page, you can download the full version, and you can link directly to the one-page briefs and individual chapters. The chapters are available for free download, and may be suitable as cost-effective supplementary readings in many social problems-related courses.

Kudos!
…to Carla A. Pfeffer (Ph.D. Candidate in Sociology and Women’s Studies, University of Michigan) for receiving a 2008-2009 Dissertation Completion Fellowship by the ACLS/Andrew W. Mellon Foundation for her project, "(Trans)formative relationships: What We Can Learn About Identities, Bodies and Work from the Women Partners of Transgender and Transsexual Men."

…and to Jane Ward on the forthcoming publication of her new book, *Respectably Queer: Diversity Culture in LGBT Activist Organizations* (scheduled for a sexualities "author meets critics" session at next spring’s PSA meeting in San Diego)
Call for Papers: Special Issue of Gender and Society

HETERONORMATIVITY AND SEXUALITIES
(Beth E. Schneider and Jane Ward, Co-Editors)

In her groundbreaking 1984 essay “Thinking Sex,” Gayle Rubin illustrated that ideas about what constitutes natural and ethical sexuality are used to discipline all people, including subjects occupying multiple axes of privilege. Yet Rubin also argued that sexual norms weigh down most harshly upon groups already marginalized along gender, race, and socioeconomic lines. Far from being reducible to matters of individual orientation, the force of sexual normalcy intersects with other systems of oppression and frequently takes center stage in moral, political, legal, and cultural formations in the U.S. and globally. Though feminist and queer sociologists have been critical of the limited incorporation of queer theoretical insights into the sociology of gender, a growing body of social science research has indeed begun to investigate sexual norms – and heteronormativity in particular—as a central organizing principle in social life, one with consequences well beyond discrimination against lesbians and gay men.

This special issue of Gender & Society seeks articles that investigate the operation and effects of heteronormativity (defined broadly as the beliefs and practices that naturalize heterosexuality and place it at the center of social organization) and resistance across a variety of gendered, racialized, and classed contexts. We welcome papers providing sociologically grounded, data-rich empirical scholarship that demonstrates how heteronormativity works in everyday lives, production of culture, and the practice of social institutions. More, we welcome papers focused on the following analytic categories, especially those that engage the concept of heteronormativity as it applies to any of the following:

- Gendered bodies, sex acts, and sexual pleasure
- Sex-related consumption and marketing
- Sexual regulation and violence
- Sexuality and institutions
- Global sexualities
- Sexuality and ability
- New theorizations of sexuality, gender, race, and socioeconomic class
- Sexual and racialized desires
- Sexual and gender subcultures
- Sexual socialization and identification
- Sexuality and aging
- Sexual communities and movements

Completed manuscripts should be submitted online to http://mc.manuscriptcentral.com/gendsoc and should specify in the cover letter that the paper is to be considered for the special issue.

Manuscripts are due October 1, 2008.
